NOVE MBER 1982

LON .K.A. TON .K.A. TON

Last Meeting

Our first open meeting was held Oct 17 1982 in a meeting room courtesy of Lyndon Kountry Key Market. Final decision was made about the name of our group and we will henceforth be known as "KENTUCKIANA 99/4 COMPUTER SOCIETY". Don Childers and Bob Shull spoke about and demonstrated the Speech Synthesizer with the Terminal Emulator II and Extended Basic Module. John Tucker spoke about tape mecorders and demonstrated some short programs. There were about 30 people in attendance. We will be glad to see new faces at future meetings.

NEXT MEETING Our next meeting will be held:

> Sunday-November 21 1982 Time-2:00 PM Lyndon Kountry Key Market 514 Lyndon Lane Meeting Room Upstairs

Directions: Exit I-264 at the Middletown exit (60 East/Shelbyville rd.). Travel East to Lyndon Lane (just past Oxmoor Shopping Center) & turn left. Go about one mile to LaGrange Rd. It is the red bldg on your left just before you reach the intersection.

 MUNCH MAN ·S SECRET

All you frustrated Munch Man fanatics will be glad to hear about a way to play that terrific 20th level screen without beating the first 19 screens An added advantage is the opportunity to choose the number of Munch Men you begin with (up to 9). Ready? Let's try it. 1. After inserting the cartridge leave the main title screen and select option 2 for Munch Man. 2. As soon as the Munch Man title screen appears depress and hold the SHIFT key; then press * #* (you must do this before the Munch Men begin to chitter and move. 3. The Munch Man title screen will be replaced with the message RND(0-2). Press 0 for round 1; (the slowest round) 1 for the medium round; 2 for the fastest round. 4. The message SCN(0-19) will appear on the screen. Due to a bug in the program you may select only screens 11 thru 20. There is no way to select one of the first 10 screens. You must press two keys; numbers 10-19 to select one of the ten screens available. 5. The message MM(1-9) will appear next on the screen. Select the number of Munch Men you want to begin with. 6. Munch away.

Thanks to Don Childers

& &

I would like to extend my appreciation to the CIN-DAY USER'S GROUP in Cincinnati Ohio (particularly Jim Schwaller) for all the help they were to us in forming our group. Ed York and the other officers of their group have offered whatever additional assistance they can give should we need it. Again many thanks.

J. Tucker

CLASSIFIED ADDS

Any member may have classified adds published in the newsletter at a rate of about 25 words for \$1.00. This rate applies to members only and not to commercial enterprises. If anyone is interested in commercial advertising contact one of the officers.

MEMBERSHIP DUES

Our dues are only \$15.00 per year. Please make checks payable to Kentuckiana 99/4 Computer Society and give them to Ric Graves at the next meeting or mail them to him at 4407 Lockridge Pkwy. Lou. Ky. 40299

INFORMATION

Unisource Electronics has compiled a most extensive catalog of hardware and software. It is over 80 pages and will be kept up to date. Each item is described and priced as opposed to the Home Library which only has list prices on TI items. They call it the "Encyclopedia/Catalog" and it costs \$6.00 (the \$6.00 is refundable on a purchase). You can get it from: Unisource Electronics Inc. P. 0. Box 64240 Lubbock Tx. 79464 or call toll free: 1-800-858-4580

If any member has information they feel might be of interest to the group please write it down and submit it to one of the officers. We will do our best to get it in the next newsletter if we have available space. The following items appeared in recent issues of business publications.

* Worldwide sales of home computers will grow from 300,000 units in 1980 to 1.5 million in 1982. (Source: Business Week, 9/6/82)

* According to the Lebhar-Friedman Home Computer Report for the 1981-1985 period, 32% of all home computers are sold by computer specialty stores; 31% are sold by electronic specialty stores; 12% are sold by catalog showrooms; another 12% are sold by discount department stores; 10% are sold by department stores; 2% are sold by toy stores; and the remaining 1% are sold by other retailers. (Source: Discount Store News, 8/23/82)

* U.S. personal computer sales will increase from \$3.07 billion retail in 1982 to \$15.56 billion in 1991. (Source: Computerworld, 8/2/82)

* The most popular business applications among personal computers users are: 1. Accounts Receivable Billing, 2. Text Editing, 3. Mailing List Maintenance, 4. Financial Planning. (Source: Computerworld, 8/2/82)

* U.S. purchasers of desktop computers are likely to spend as much money within 18 months of computer purchase for software as for the original computer purchase. (Source: Wall Street Journal, 8/26/82)

* Home Computer furniture manufacturers are steadily growing. Current manufacturers include Atlantic Cabinet, Bush, ECC, Gutmann, Gusdorf, O'Sullivan. Suggested retail prices range from \$149 to \$280. (Source: Audio Video International, 8/82)

* Atari underestimated the home computer market and is sold out until year-end 1982, according to a Business Week Article in the September 13, 1982 edition.

CONSUMER HOTLINE

A Resource for People Interested in the Enrichment of Personal Computing The following books cover understanding and programming home computers. The books are available or can ordered through most bookstores.

* <u>Basic Computer: Programs for Business: Vol. 1</u> by Charles D. Sternberg, 1980. \$12.95, 384 pages. Contains more than 35 programs which include inventory turnover, production scheduling, cash flow, and budgets.

* <u>Basic Computer: Programs for the Home</u> by Charles D. Sterhberg, 1979.
\$11.95, 336 pages. Contains more than 75 programs for the home.
* <u>Basic Computer: Programs in Science and Engineering</u> by JUles A.
Gilder, 1980. \$11.95, 160 pages. A collection of 114 programs covering means, standard deviation, interpolation, and designing antennas, filters, and attenuators.

* <u>Game Playing with Basic</u> by Donald Spencer, 1977. \$11.50, 176 pages. Challenge the computer by playing such games as Knight's Magic Tour, Roulette, and Baccarat.

* <u>Introduction to Fasic</u> by D. Inman, R. Zanora, and R. Albrecht, 1980. \$12.95, 384 pages. The 14 chapters and appendices teach you to program and operate the TI Home Computer.

* <u>Mindstorms</u>: Children, Computers, and Powerful Ideas by Seymour Papert. \$13.95, 230 pages. Explains the rationale behind learning with LOGO.

* <u>Pratical Basic Programs</u> Edited by Lon Poole, 1980. \$16.50, 200 pages. Especially useful for small business applications.

* <u>Programming Basic with the TI Home Computer</u> by Herbert D. Peckman, 1979. \$14.50, 306 pages. An intermediate level book for further programming the TI Home Computer. Available by sending check or money order to TI, P.O. Box3640, MS84M, Dallas, TX 75285. Please include local tax.

Don't forget 99'er Magazine! It is devoted to the TI computer and is the best computer magazine I have read. Attached is a subscription form for your convenience. Remember it will take about 8 weeks for your subscription to start.

To: Officers of TI Computer User Groups

We are a newly formed user group and are enjoying all of the thinds that go with organizing such a group. In a few short months we have grown to more than sixty strong and anticipate further growth.

We would appreciate any interaction between our groups that you would care to have, such as exchanging newsletters or any other ideas that you might have. Your group has been added to our mailing list so that you will receive our newsletter each month. If it pleases you to send us your newsletter we will appreciate it.

Looking forward to hearing from you.

John Tucker, Pres.

9801 Tiverton Way Louisville, Kentucky 40222
