TI-99/4A Buyer's Guide & Catalog
6th Anniversary Issue

Software

Home Management, Personal Finance, Education, Arcade-type games — all in the big Texas Instruments Home Computer software library.

Tex Comp continues to stock the world's largest selection of TI Software. The TI Software library on module, disk and cassette was developed from 1979–1983 at a cost of millions and is considered the best in the home computer software field. TI utilized the talents of such industry leaders as Scott Forsman, Milton Bradley, Microsoft Corp., Scott Adams, Addison Wesley Publishing, DLM, Milliken Publishing, Scholastic Inc., Imagic, Spinnaker and the list goes on and on.

SPECIAL OFFER

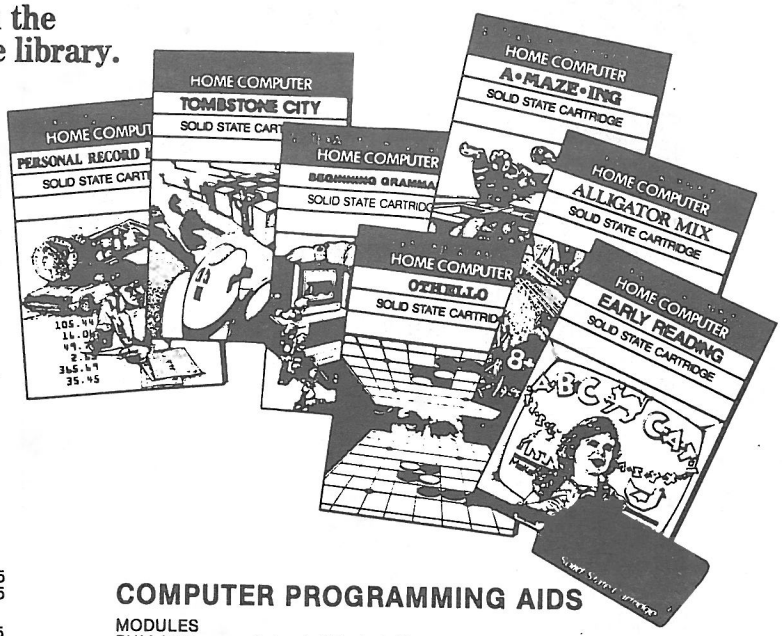
©1985 Tex-Comp
The relationship between Texas Instruments and Tex-Comp is solely that of an independent buyer and seller.

Programs for everyone in the family — from the Texas Instruments Home Computer software library.



Tex-Comp purchased TI's inventory of these outstanding titles in order to continue its support of the TI-99/4A user, and also continually acquires inventory from leading retailers and distributors who have discontinued home computer sales.

With its five warehouses and financial resources, Tex-Comp has been able to assure you, the TI-99/4A user continued support.

Handicapper!

THE ONLY PROFESSIONAL HANDICAP PROGRAM FOR THE TI-99/4A

Thoroughbred factors include speed, class, past performance, post position, jockey record, beaten favorite and weight. Harness factors include speed, class, past performance, post position, driver record, breaking tendencies, beaten favorite and parking out.

Now use your TI-99/4A to improve your performance at the track! Separate programs for thoroughbreds and harness horses and will rank the horses in each race. Data entry is quick and easy. Handicap a race in minutes and a whole card in less than an hour! All the information you need is readily available from the Racing Form or harness program. We even provide a chart showing you where to find it!

We can't guarantee a winner every time, but if you use **The Handicapper**, follow our advice and wager wisely, you'll be a smarter and richer bettor.

NO EXTRA MEMORY REQUIRED.

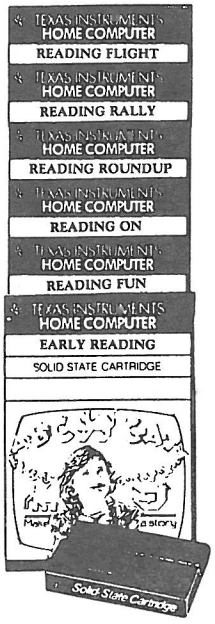
SAVE UP TO 85% OF ORIGINAL PRICES!!

The Scott Foresman & Co. Reading Series with Special Value Package on the Three Most Popular Modules: EARLY READING, READING FUN & READING ROUNDUP

All 3 Modules for ONLY
$14.95 + S&H



Now you can purchase the entire Scott Foresman Reading Series at a fraction of the original price of over $325. This series consists of 6 graded modules and manuals which take the child from pre-school through 6th grade level reading. This series has helped thousands of children to learn to read and to help improve their reading skills. By Special arrangement with Texas Instruments, **TEX-COMP**, is able to offer you a special package of the three most popular titles in this series, Early Reading, Reading Fun and Reading Roundup, at the amazing low price of only **$14.95** for all three (a 50% savings)!

- EARLY READING: Engaging color graphics and computer speech introduce and reinforce important reading skills. Speech synthesizer required. Cartridge.
- READING FUN: Stories and practice drills help build vocabulary and reading skills. Grades 1-3. Speech synthesizer is recommended. Cartridge.
- READING ROUNDUP: Several stories teach fourth grade level readers idioms, figures of speech and word meanings in context. Speech synthesizer optional. Cartridge.

The above titles are also available separately at $9.95 each.

Also available at $9.95 each are:

- READING ON: Teaches skills required to understand maps, graphs and schedules. Several stories and appropriate drills reinforce skills. Grade 3. Cartridge.
- READING RALLY: Practice basic reading skills and learn the difference between fact and opinion; understand the author's purpose and the bias and connotation of words. Grade 5. Cartridge.
- READING FLIGHT: For sixth grade level readers, several stories with special exercises to teach summarizing classifying and outlining skills. Speech synthesizer is optional. Cartridge.

The TI Speech Synthesizer is required with the Early Reading Module and recommended for several others. The latest TI Speech Synthesizer with improved voice chip is available from Tex-Comp at **$59.95**.

NO SUBSTITUTIONS CAN BE PERMITTED ON THIS SPECIAL OFFER!

This software cartridge adds memory to your system. Totals 14K of memory (6K of GROM, 4K of ROM, 4K of RAM). Mini Memory includes a built-in battery, permitting programs and data stored in RAM to be retained even if module is removed from console.

BONUS: FREE Mini-Writer I word processor (a $19.95 value) with Mini-Memory Purchase.

TEX-COMP
YOUR TEXAS INSTRUMENTS SOURCE

The COMPLETE... Adventure

For the Texas Instruments Home

ATTENTION TI OWNERS,

By special arrangement with Texas Instruments and Adventure International, TEX-COMP offers the entire 12-volume series of Scott Adam's Adventure for the TI-99/4A Home Computer at a special package price of only ***$49.95.*** *Save hundreds of dollars off the original suggested retail price. The Scott Adams Adventure Series, produced for every major brand of home and personal computer, is recognized as the leading name in adventure gaming.*

You only need the TI-99/4A (or 99/4) console and a tape recorder or disk drive storage capability. Insert the TI Adventure Module into the console and load the particular game you want to play from cassette or disk. You are transported to another time and place where two-word commands allow you to manipulate objects and perform acts as if you were actually there. The object of each game varies as the games themselves do. It may take hours, days or even months. Like a good novel, you can lay it down and then continue where you left off. Save the game on cassette or disk and then recall it.*

TEX-COMP makes TI adventuring inexpensive and exciting, and offers complete supporting products—TI Adventure Command Module, only $6.95, and the Official Scott Adams Adventure Hint Book, only $7.95.

BE SURE TO SPECIFY DISK OR CASSETTE WITH YOUR ORDER!

THE ADVENTURES . . .

#1 ADVENTURELAND — Wander through an enchanted realm and try to uncover the 13 lost treasures. There are wild animals and magical beings to reckon with as well as many other perils and mysteries. This is the Adams Classic that started it all! Difficulty Level: Moderate

#2 PIRATE ADVENTURE — Only by exploring this strange island will you be able to uncover the clues necessary to lead you to your elusive goal — recovering the lost treasures of Long John Silver. Difficulty Level: Beginner

#3 ADVENTURE #3 — In this exciting Adventure, time is of the essence as you race the clock to complete your mission in time — or else the world's first automated nuclear reactor is doomed! If you survive this challenging mission, consider yourself a true Adventurer! Difficulty Level: Advanced

#4 VOODOO CASTLE — The Count has fallen victim to a fiendish curse placed on him by his enemies. There he lies, with you his only possible hope. Will you pull off a rescue, or is he really down for the Count?! Difficulty Level: Moderate

#5 THE COUNT — It begins when you awake in a large brass bed in a castle somewhere in Transylvania. Who are you, what are you doing here and WHY did the postman deliver a bottle of blood? Difficulty Level: Moderate

#6 STRANGE ODYSSEY — At the galaxy's rim, there are rewards aplenty to be harvested from a long-dead alien civilization, including fabulous treasures and advanced technologies far beyond human ken! Prepare yourself for the incredible! Difficulty Level: Moderate

#7 THE MYSTERY FUN HOUSE — As Adventure #7 begins, you find yourself hopelessly lost in the middle of a carnival fun house. While escape may elude you, one thing is very clear — you're NOT here to have a good time! Difficulty Level: Moderate

#8 PYRAMID OF DOOM — This is an Adventure that will transport you to a dangerous land of crumbling ruins and trackless desert wastes into the PYRAMID OF DOOM! Jewels, gold — it's all here for the plundering — IF you can find the way. Difficulty Level: Moderate

#9 GHOST TOWN — You must explore a once-thriving mining town in search of the 13 hidden treasures. With everything from rattlesnakes to runaway horses, it sure ain't going to be easy! Includes a special bonus scoring system too! Difficulty Level: Advanced

#10 SAVAGE ISLAND PART I — A small island holds an awesome secret — will you be able to discover it? This is the beginning of a two-part Adventure. (The story continues in SAVAGE ISLAND PART 2, ADVENTURE #11.) NOTE: This one's a toughie — for experienced Adventurers only! Difficulty Level: Advanced

#11 SAVAGE ISLAND PART II — The suspense begun in Adventure #10 now comes to an incredible conclusion with SAVAGE ISLAND PART II! This Adventure requires you to have successfully finished #10, wherein you were given the secret password to begin this final half. NOTE: For experienced Adventurers only! Difficulty Level: Advanced

#12 GOLDEN VOYAGE — The king lies near death in the royal palace. You have only three days to bring back the elixir needed to rejuvenate him. Journey through the lands of magic fountains, sacred temples, stormy seas and gold, gold, GOLD! This one is for experienced Adventurers only! Difficulty Level: Advanced

ADVENTURE HINT BOOK

Our hint book provides clues and solutions to help you out of those sticky spots you have gotten into while still enabling you to solve the Adventure yourself. So if you can't seem to get out of the bog, or locate the Pharoah's heart, then you've come to the right place for help. This edition includes hints for all SCOTT ADAMS Adventures 1-14. There is also a special section on the making of Adventure Maps. For those that just want answers, there is a solution section, too. But don't worry. All clues and solutions are specially encoded so that the only time you can get a clue or answer is when you want one. Also includes hints for Spiderman, Hulk, and Buckaroo Bonzai.

Hint Book $7.95

New Announcing The TI-99/4A **ADVENTURE EDITOR** **29.95** add 3.00 shipping and handling

NOW WRITE AND EDIT YOUR OWN GAMES FOR THE TI ADVENTURE MODULE!

TEX-COMP is proud to announce the 99/4A Adventure Editor—an all new program which allows you to write your own adventure programs—Scott Adams move over! This disk or cassette based program allows:

1. Any existing adventure for the 'Adventure' command module to be edited, altered, listed, and copied from any storage medium to any other storage medium (i.e., tape to disk or vice versa).
2. New adventure games can be created freely, using a 'template' game as a start-up step. These games can be conceived using the full power and capabilities of the TI 'Adventure' command module.

The program is written for 'Mini-Memory' or 'Editor-Assembler' command modules (cassette or disk) and offers a full screen editor and a special easy-to-use, mnemonic language called A.P.L. (Adventure Programming Language), and comes with a complete and detailed 75-page manual.

TEX-COMP is also organizing a new TI Adventuring Users Group which will allow low-cost exchange of user-written adventures between members

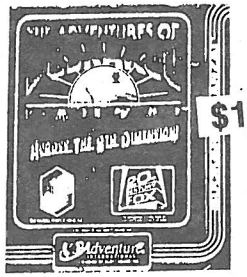
Your objective is two-fold: to survive and . . . to unlock the riddle of the Chief Examiner! $19.95

CLAYMORGUE CASTLE

$19.95

"Claymorgue castle harbors spells," warns Solon, the Master Wizard. "But beware—one unskilled in the magical arts cannot predict their outcome." An incredible new Adventure from the Master himself, Scott Adams.

BUCKAROO BANZAI



$19.95

In the adventure of BUCKAROO BANZAI™, you, as Buckaroo, must disarm the doomsday bomb, that has been left on earth by the evil Lectroids. This bomb is of complex design and operation and will destroy the world unless Buckaroo can find it.

SPIDER-MAN

$19.95

Much more than an arcade game and recommended by educators around the world, you move through a wonderous electronic world by entering English commands. In the Spider-Man™ Adventure you must prove to the Chief Examiner™ that you can utilize the powers of Spider-Man™. Your objective is two-fold: to unlock the riddle of the Chief Examiner™ and . . . to survive!

TEX-COMP™ Proudly Introduces INFOCOM™

The next dimension.

for the TI-99/4A

They're Here.

Meet your match. Meet Infocom games: perhaps the best reason in software for owning a TI-99/4A.

In fact, people have been known to purchase home computers and disk drives solely for the purpose of playing Infocom games. And they haven't been disappointed. Because these interactive adventures stimulate your imagination to a degree that nothing else in software approaches. Instead of putting funny little creatures on your screen, you are placed inside the story and confronted with startlingly realistic environments alive with situations, personalities, and logical puzzles, the likes of which you won't find elsewhere..

The prose is plugged into your imagination and you are catapulted into a whole new dimension. At last, you can spend an evening playing a computer game on your TI-99/4A and know that the entire investment was worthwhile. Infocom has released *all* 11 of their best selling titles in the TI-99/4A disk format*.

TEX-COMP is supporting the entire Infocom line and *all* titles are in stock for immediate delivery. As the leading source of quality adventure games for the TI-99/4A, TEX-COMP will be selling the Infocom games as specially lowered discount prices to make them that much more easier to acquire . . . If you think that the Infocom experience is worth having, then step up to Infocom. All words. No pictures or graphics. Because there has never been a computer built by man (not even TI) that could handle the images produced by Infocom games and your mind. Infocom games draw their graphics from the limitless imagery of your imagination—a technology so powerful, it makes any screen produced by a computer look like graffiti by comparison. And nobody knows how to unleash your imagination like Infocom.

The secret reaches of your mind are beckoning. A whole new dimension is in there waiting . . .

The Infocom TI-99/4A experience:

INFOCOM™

The next dimension.

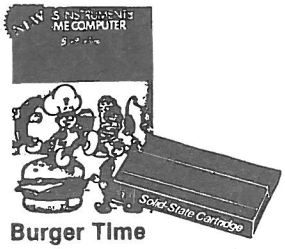
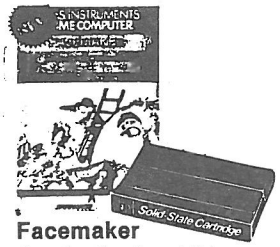
Story Machine
Helps children write sentences, paragraphs, even simple stories while learning the parts of speech

SPINNAKER



Burger Time
One of the hottest arcade games in its original razzle-dazzle format. Your chef, Peter Pepper, is surrounded by pickles and hot dogs. Dodge 'em, pepper 'em, lead 'em down ladders and onto a bun before they make you the main course



Facemaker
Creative fun for children ages 5 to 7. Provides very simple introduction to programming and familiarity with keyboard

Special Bonus Price
Order the Complete "Magnificent Three"
All Three For Only $17.95

IMAGIC

MOONSWEEPER

Alert, alert! As pilot of the USS Moonsweeper, you must rescue miners, land while evading photon torches and satellites, defend your ship from space bullets and armed launchers. Then catch accelerator rings to pick up speed and escape! A 1-player game. (Wired Remote Controllers recommended.)

FATHOM

Rescue Neptune's daughter. She's chained to a sunken ship, her father powerless to help because his enemies have broken his magical Trident into three pieces. You travel the sky and the sea in search of the pieces, all the while fighting off obstacles to save her! (Speech Synthesizer and Wired Remote Controllers recommended.)

MICROSURGEON

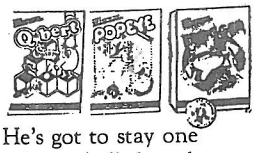
Advance from medical student to intern to brilliant surgeon in this fascinating fantasy: an operating room where you work against time to save critical patients. Choose from 1000 patients and a variety of diagnoses. (Speech Synthesizer and Wired Remote Controllers recommended.)

SUPER DEMON ATTACK

Tentacled demons out of nightmares are blasting the moon. You destroy their attack waves by maneuvering and firing your laser cannon. Then dare to infiltrate their base! Two different battlefields, plus continuous play as you achieve higher levels of skill. A 1-player game. (Wired Remote Controllers recommended.)

$9.95 Each

PARKER BROTHERS software cartridges for the TI-99/4A



Q*bert Life isn't easy for Q*bert. He's got to stay one jump ahead of Coily the snake and all the other dastardly creatures. So spring into action and help Q*bert bounce from step to step on the colorful, three-dimensional pyramids. **$19.95** postpaid

POPEYE Come aboard, mates! Join in the adventures of Popeye as you race him through a crazy maze while Brutus and the Sea Hag do their best to keep him from winning the affection of his sweetheart—Olive Oyl. **$19.95** postpaid

FROGGER Frogger's first challenge is to cross a busy highway, reckless with hotrids and huge trucks. Beyond is the raging river, where the safety of a slippery log or diving turtle is all Frogger can count on to stay afloat. **$19.95** postpaid

NEW

MIDNIGHT MASON

THE TI-99/4A ANSWER TO GHOST CHASERS

A delightful chase through a maze of ladders and brick walls as you direct your mason in collecting his tools. Entertaining animation as the mason climbs, runs, builds, and breaks through brick walls in his attempt to avoid being devoured by not so friendly ghosts. Great arm flexing, leg pumping, pick swinging action. You will play for hours. Requires Extended Basic, 32K and disk drive.

$14.95 Plus S&H

SPECIAL BONUS: Midnight Mason plus 3 additional high speed arcade games: Micro Pinball II, TI TOAD and Burger Builder.

All for ONLY $19.95 Plus S&H

Each program can be ordered separately at $14.95 each.

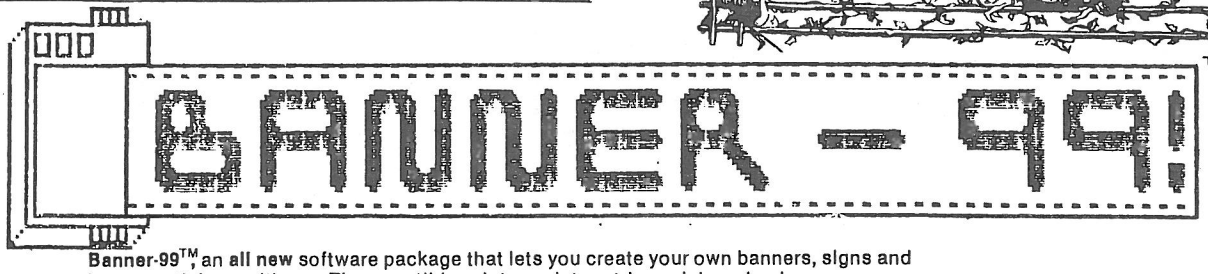
TRIVIA 99

is a new trivia game written for the 99/4A and is available in both disk and cassette versions. The program comes with a set of sample trivia questions and the user can easily write custom questions from memory or from one of the many trivia games and magazines now available. Great for parties and even teaching the kids history. The disk version contains several additional features such as disk access and a record of which questions are used. Both versions will run in console basic so any system with just a cassette or disk can run this program. When ordering, be sure to specify **CASSETTE or DISK VERSION.**

Cassette Version—$9.95 **Disk Version—$12.95** *postpaid*



Banner-99™, an all new software package that lets you create your own banners, signs and bumper stickers with any TI compatible printer—dot matrix or daisy wheel.

Examples of banners and signs you can make with Banner-99.™

Software

The Oscar™ Software Library

NEW

SPECIAL

These 28 Outstanding Programs Never Before Available on Cassette or Disk

A complete home and family software library for the TI-99/4A for ONLY $12.95 (less than 50¢ per program).

In 1983, the DataBar Corporation developed an extensive TI Software library which they planned to distribute in bar code form in a monthly magazine which the subscribers could then load into their computer with the "Oscar," a compact bar code reader.

Due to changes in market conditions, DataBar has discontinued its home computer division and Tex-Comp has bought out their entire library of TI-99/4A Software on disk & cassette.

Tex-Comp now makes this extensive library of over 28 assorted programs with complete printed instructions and documentation available on cassette or disk (PLEASE SPECIFY) at only $12.95.

These professionally prepared programs include education, entertainment, personal enrichment, first aid, finance and law.

TITLES INCLUDE:

Match—Find the pairs of numbers hidden behind the computer's doors.

Four-In-A-Row—Be the first to make a row of four.

Pachisi—A race to the finish line.

ROI—Return On Investment

Loan Amortization—How much principal and interest will you pay on a loan?

Speller—A Spelling and Typing Tutor . . . and a game of memory.

Alphabet House—Build your own house with your alphabet skills.

Running Planner—How rapidly should you increase the distances you run?

Word Habits—Keep reading and writing habits up with current demands.

Amulet—Search the cavernous building to find the precious Amulet

Caterpillar Climb—Solve addition problems to move your caterpillar over the wall.

Financial Quiz—Check the pulse of your pocketbook.

IRR—Internal Rate of Return

Math Challenge 1—Pit your mathematical skills against the computer or a friend.

Star Count—Use logic skills to spring open a box of shining stars.

Health Assessment—How are your current health practices affecting your life expectancy?

The Law and You—A look at how laws affect your daily activities.

Speedreading—Train your eyes to take in more words per second.

Code Master—Discover the secret code.

Room to Move—Unscramble the letters with wise moves.

NPV—Net Profit Value

Payback Period—Payback Period

Balloon Darts—Build your skills with fractions as you aim and fire your dart.

States 'N Capitals—Can you name more capital cities than your opponent?

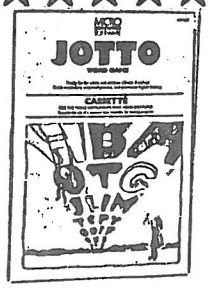
First Aid—Burns—How should you react in an emergency burn situation?

Triangle Solutions—This makes math friendly for your practical applications.

Sentence Tutor—Practice breaking down sentences into their essential elements.

Program in Basic—Eases the chore of learning to program.

Attention Hobbyists & Gadget Lovers: *Tex-Comp has a limited supply of brand new Oscar DataBar readers in factory-sealed cartons (complete with cable for the TI-99/4A) & packs of assorted bar code software. Complete package, No Warranties,* ***ONLY $9.95*** *when purchased together with the above offer—Cannot be purchased separately.*



JOTTO

An educational game that builds vocabulary, develops the ability to analyze patterns, and promotes logical thinking. There are three levels of play, and Jotto is suitable for ages 8 through adult.

$7.95

By special arrangements with Texas Instruments, Tex-Comp proudly introduces **Speak & Spell II**—the award-winning TI Educational Spelling program, now re-programmed to run on Extended Basic (available on disk only). Requires 32K Expansion, Extended Basic, Disk Drive and Speech Synthesizer.

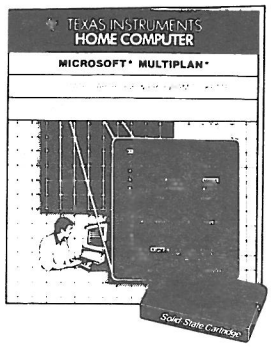
SPEAK & SPELL II

$9.95

Speak & Spell offers many features. Children can hear a word pronounced correctly as they learn to recognize and spell it. Five activities provide valuable tools to make learning fun. "Spell" pronounces a word and asks the child to type the correct spelling. "Mystery Word" selects a word and the child tries to guess it by spelling it correctly. "Say it" prompts a child to say a word and then spell it. "Secret Code" codes a word so that no one can read it until the coded word is entered and decoded by the computer. These and other exercises will help children become more at ease with the spelling of different words.

TEX-COMP Visa & Mastercard Holders Call Direct 24-Hour Order Line **(818) 366-6631**

MULTIPLAN by MICROSOFT



Second-generation electronic worksheet with many advanced features and built-in ease of use.

Requires disk drive and controller, and 32K Memory Expansion Unit. 99/4A only. Printer and RS232 Interface recommended. Cartridge and Disk.

$38.95

BOOKS FOR MULTIPLAN

Power of Multiplan A collection of multiplan examples of accounting and business applications which can be used directly on your 99/4A or modified for specific applications. An excellent learning tool. . . . . **$14.95** postpaid

Mastering Multiplan The most complete book available for users with no spread sheet background. . . . . **$10.95** postpaid

Managing Your Business with Multiplan This newly introduced book shows how Multiplan can be utilized to run your entire business. Saves countless hours over working out these applications on your own. . **$17.95** postpaid

Attention TI Owners, Here's . . .

TI-FORTH VERSION 4.5 PHD 5098

$19.95

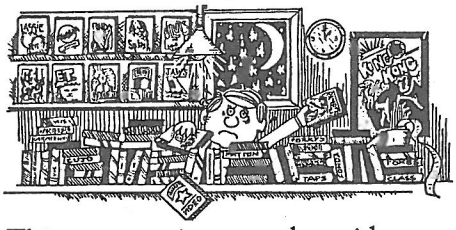
REQUIRES EDITOR/ASSEMBLER

By special arrangement with Texas Instruments, TEX-COMP is now publishing the complete TI-Forth with spiral-bound documentation. This programming language is very fast in execution, and is much easier to program than assembly language. TI-Forth can be used for countless applications, including business, arcade-type games, and music. Forth is becoming a favorite language of programmers of many home and personal computers, and a national interest group is in operation!

Forth Demo Disk This disk contains a vast assortment of music and outstanding color graphics written in Forth. Requires Editor/Assembler module . . . . . **$9.95** postpaid

Forth Source Code The Complete source code for TI-Forth. Provided on two disks. . . . . **$11.95** postpaid

Starting Forth by Leo Brodie This is the best book available for TI-Forth, and is recommended by TI in the Forth Documentation. The *perfect* companion to TI-Forth . . . . . **$14.95** postpaid



VIDEO STORE for the TI-99/4A

This program is a complete video tape library system (VTLS) to help a video tape rental store or department control tape rentals and returns. With VTLS and a fully equipped TI-99/4A computer, a store clerk can quickly determine if a tape is in stock, and if not, when it is expected back. Printed reports can be run by category and title to track which titles are getting rented most often, or which tapes are overdue. This program uses the full power and capability of the TI-99/4A. It can store up to 1200 different titles and 3000 separate tapes with up to 5 VHS and 5 Beta tapes per title. The system requires 32K Memory expansion, **3 Disk Drives**, and an Epson or Gemini10X compatible printer. The program runs on Extended Basic, comes fully documented with a six chapter instruction manual, and three disks with sample titles already keyed in. The program can be easily modified for other types of rental or similar businesses. **NEW LOW PRICE** . . . . . **$19.95** postpaid

SELF HELP TAX CUT: *An all new tax-record keeping program which uses a joystick as a "mouse" to select various categories. This is a high powered program with all the latest features including "icons" (mini-illustrations). Requires 32K, Disk Drive and Extended Basic.* ***$17.95 postpaid***

TRAK-A-CHECK

A program for home or small business finances: with features not found in any other check program.

FEATURES

Screen prompted entries. 36 Budget categories. Display current balance. Reconcile Bank Statement. Locate Specific transactions. Print transaction or category totals—with optional printer.

EXER-LOG

Never before Available for the TI99/4A. Written by an M.D., **Exer-Log** calculates how far you must run after those extra cookies.

FEATURES

Calcaulates calories burned for 40 exercises ranging from sleeping to marathon running. Stores and retrieves up to 5 activities per day for an entire year. Recall and display activities for a given date or interval.

DAILY DIARY

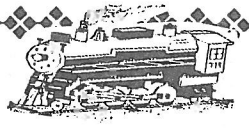
Imagine scheduling a whole years' activities. **Daily Diary** will be your efficient side and let your mind play.

FEATURES

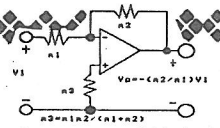
Store and retrieve up to 10 hourly appointments for an entire year. Special daily memo slot for birthdays and anniversaries. Print out single day appointments for a full months' calendar with optional printer.

Now Available from TEX-COMP at the Incredible Price of $14.95 each

All Programs require Extended Basic, Disk Drive: Printer Optional



QUALITY 99 SOFTWARE



DRAW 'N PLOT®

Draw any image on the screen with *pixel* accuracy and assembly language *speed*. You can save to disk any image or drawing you create, and read it into another program. Mix any combination of text and Graphics. Specify background and line colors. Print any image from the screen on an Epson or Gemini 10X compatible printer. This is the ultimate TI-99/4A screen dump program! Lets you use your screen or printer like an expensive plotter, with eight plotting commands. Create and print drawings, graphs, designs, and illustrations. The only limitation is your imagination. Requires Disk Drive, 32K, Ex. Basic and joystick. **$29.95** postpaid

CHARTMAKER®

Turn ordinary numbers into impressive graphs and charts! Create pie charts, horizontal or vertical, and 3D bar graphs on the screen or printer quickly and easily, from your input data. Up to 12 items. Menu driven. Requires Draw 'N Plot. **$19.95**

SDUMP

The world's fastest, easiest screen dump program! Simply press 2 keys at any time and get a FULL screen dump in only 27 seconds, with no missing columns! Works on TI, Epson Gemini, Panasonic & Prowriter printers. Works from command mode. TI Basic or Extended Basic. Even works when running a protected Extended Basic program! NO programming required! NO hardware modification required! Can also be used in your TI Basic or Extended Basic program, with one simple instruction! Requires 32K, disk system and Extended Basic or Editor/Assembler. **$14.95**

DATABASE 99®

A fast, flexible, friendly data base management program for the TI-99/4A. Quality 99 software has created this program with everything you ever wanted from TI's Personal Record Keeping but couldn't have because of memory limitations. Create records up to 28 fields and 28 characters each. Sort on *any* field and print any field in any column on any line. Very, very fast! Store 350 records on a single density disk or 1400 records on a DS/DD disk. Can be expanded to multiple drives! Create custom mail lists, keep track of collections, apointments, reservations, etc. Requires Disk, 32K and Ex. Basic. **$29.95** postpaid

QUICK COPYer II

Backup your disks, including Proprietary disks, in 3 passes or less! (2 passes or less with Mini Memory!) Full or selective backup. Format and initialize the copy disk. Faster access, less wear and tear on your drive! Save time and work! Requires 32K & Ex. Basic or Ed-Assem. or Mini Memory. **$29.95** postpaid.

THE LIBRARIAN

Locate any program, fast! Produces an alphabetized catalog of all your disks and reports available space on each disk. Requires Ex. Basic, printer. **$14.95**

DISK LABELER

Instantly shows which programs are on a disk. Produces a disk catalog, in condensed print, on a mailing label (or printer paper). Attach to disk or disk envelope. Requires Ex. Basic, disk system. **$14.95**

QUICK-CATaloger

A resident disk catalog program. Always in memory, available for instant use! Get a disk catalog from any drive, on the screen or printer, from TI Basic or Extended Basic, without disturbing the program in memory, and without using the Disk Manager module. Requires 32K and Extended Basic, or Editor/Assembler or Mini Memory. **$14.95**

DISK MANAGER III

Resident disk manager program! No more swapping modules! Save time! Save wear and tear on your console! Contains all the most frequently used functions of the Disk Manager module. Always in memory, ready for instant use, at any time! Get a disk catalog on the screen or printer, initialize a disk, change a diskname, change a filename, delete a filename, change file protection. All from command mode, without disturbing your program in memory, and WITHOUT using the Disk Manager module! Each function can also be used in your Ex. Basic program! Works with both TI & CorComp controllers. Requires 32K, Extended Basic. **$29.95**

EZ-LOADER

Automatically reads disk catalog. Then, you can load and run any program with just one stroke! Delete any filename with just two strokes! Save time, eliminate typing mistakes. Unprotected, so you can put it on all your disks! Requires 32K, Ex. Basic. **$14.95**

XB-FORTH

Load and run TI-FORTH (not included) with Extended Basic! Save money! no need to buy the Editor/Assembler module. More convenient! No need to swap modules. Discover the power of TI-FORTH, with Extended Basic! Requires Ex. Basic, 32K, disk system. **$14.95**

QS-ASSEMBLER

Load and run the Assembler disk (not included) with Extended Basic! Much faster and more convenient to use. No module swapping. Create and edit your assembly program using the powerful editing capabilities of QS-WRITER, then assemble it with QS-ASSEMBLER, all with the Extended Basic module only! Requires 32K, Ex. Basic, disk system, Editor Assembler disk. **$22.95**

LOGO-LISTER

List your LOGO procedures to a parallel or serial printer directly from a disk, with the Extended Basic module! LOGO module is not required. Very fast and easy to use! Requires 32K, disk system, Ex. Basic. **$22.95**

QS-XREF

An invaluable tool in writing or modifying programs! Saves hours of your time in program development and debugging. Produces a FULL cross-reference listing of all key words, functions, variable, subprograms, and line numbers in ONLY 2 minutes! Over 30 times faster than Programming Aids III! No disk swapping or accessing! Completely automatic, no manual operations. Shows where each variable is changed, in addition to where it is used. Outputs to either screen or printer! Requires 32K, Extended Basic, disk system. **$29.95**

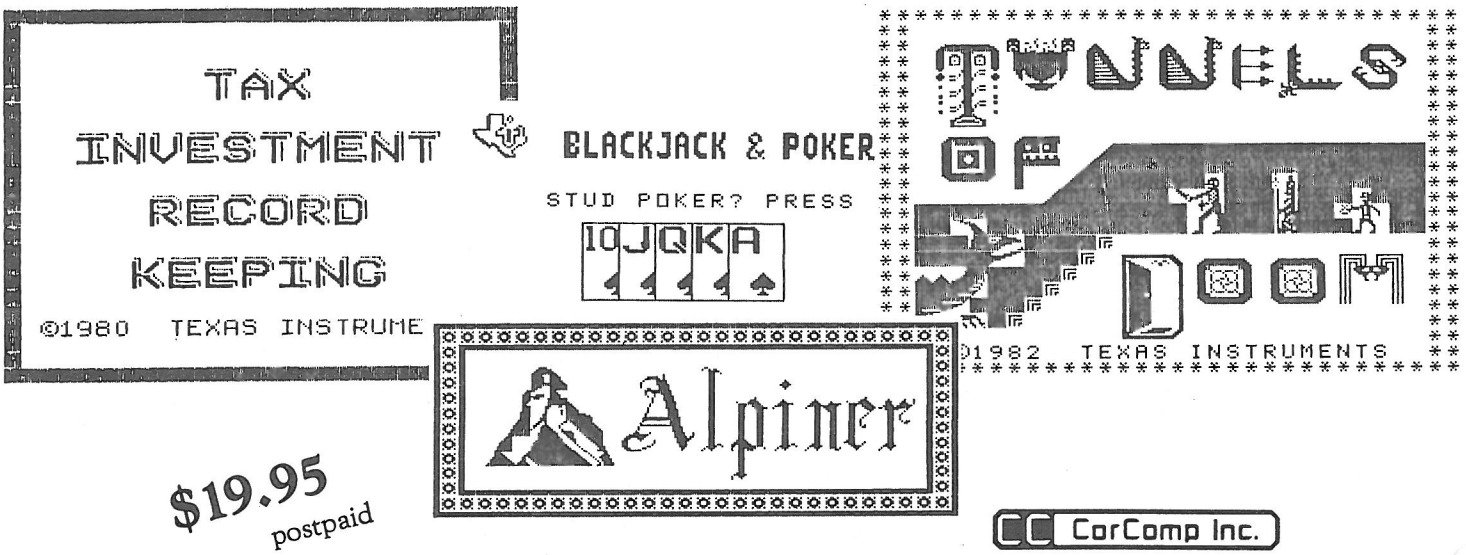
FREE "SUPER DUMP" Screen Printout Software

(by Danny Michael)

with purchase of the NEW CorComp LOAD/INTERUPT SWITCH



$19.95 postpaid

CorComp Inc.

Print the screen of a Basic or Extended Basic program at the press of a function key. Also print the screen of many modules, including Music Maker, Tax Investment Record Keeping, Personal Real Estate, etc.

No need to worry about not having a serial printer for the older TI modules. This new plug-in Load/Interupt Switch easily inserts between the console and the speech synthesizer or P-Box. Requires 32K, Disk Drive, Extended Basic. Works only with Epson, Gemini 10X, Star SG10, TI855, and other dot matrix **fully** Epson compatible printers.

NOTE: A ProWriter version of Super Dump is also available (must specify with order).

TINY LOGO

Create colorful graphics with the Tiny LOGO turtle, and learn programming at the same time! Developed by a teacher who wanted an inexpensive way to teach the LOGO language, Tiny LOGO—like the more advanced versions—allows recursive programming, procedures calling procedures, and the passing of variables. No extra equipment is needed. Tiny LOGO runs with the TI-99/4A, a TV set, and a cassette recorder. A 32-page detailed instruction booklet with sample programs is included. Tiny LOGO—ages 4 through adult.

Cassette Only **$7.95**

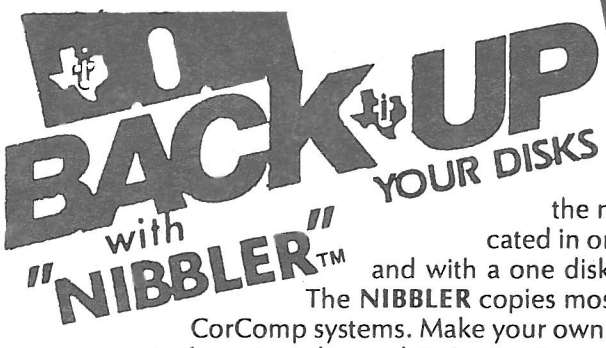
$19.95 POSTPAID*



NIBBLER™ is the most powerful disk duplicator available for the TI-99/4A. Unlike the TI Disk Manager Module which cannot access the 32K memory expansion, this program reads as much as the memory can hold and then writes it to the new back-up disk. This means that disks can be duplicated in one to three passes. Saves wear and tear on your drives and with a one disk drive system, it saves wear and tear on you!

The **NIBBLER** copies most protected disks and is compatible with both TI and CorComp systems. Make your own back-ups in case of disk disaster. Full menu selection, auto format, and complete instructions on the disk in an easy to access "HELP" file. Exclusive feature allows copying of selected sectors only. Runs on Extended Basic, Editor/Assembler or Mini-Memory. For speed, convenience, security and accuracy . . . its **NIBBLER!**

$19.95 POSTPAID*

Inspect the innermost secrets of a TI-99/4A Disk

The Explorer™

Disk Editor for the TI-99/4A

REPAIR, FIX AND EDIT!!

The EXPLORER™ is a powerful disk editor written in assembly language allowing the user to edit a disk by individual sectors rather than by filenames. Individual bytes within any sector of a disk may be displayed and edited.

Editing is handled through a full-screen editor that displays the contents of a sector on the screen and allows editing in both hexadecimal and ASCII character formats.

The Disk Editor may also be used to move data from one sector to another and to attempt to fix damaged disk directories and improperly closed files. Optionally, the contents of all sectors being viewed on the screen may be dumped to a printer, the disk drive, or any other standard peripheral.

Supplied on a single diskette, the EXPLORER™ requires 32K memory expansion, one or more disk drives, and either TI Extended BASIC, Mini-Memory, or the Editor/Assembler cartridge.

SPECIAL INTRODUCTORY OFFER: With each copy of the EXPLORER™, you will also receive a free copy of Disk Manager 1000, a completely self-contained disk manager program.

ALSO AVAILABLE: "Hidden Powers of Disk Fixer," which will assist you in expanding the uses of the EXPLORER™. $9.95 POSTPAID

The EXPLORER is a registered trademark of Tex-Comp. Any unauthorized use constitutes a violation of Tex-Comp's trademark rights.

Tex-Comp & Navarone present

NAVARONE

CARTRIDGE EXPANDER — 24.95 postpaid

Eliminates cartridge overheating and increases console life.

DISK FIXER — 29.95 postpaid

INCLUDES HIDDEN POWERS BOOK

Unlocks the secrets of the disk and lets you access hidden or "lost" information. *See important module notice below.

SUPER-DUPER — 24.95 postpaid

Safeguards masters fast. *See important module notice below.

SPEED READING — 24.95 postpaid

Improves reading speed and comprehension. Versions for children, teens, and adults. Cartridge Software, no extra equipment required.

Version A for teens and adults. Version B for children 8 through 13. *See important module notice below.

HOMEWORK HELPER — 29.95 postpaid

Makes homework fun, develops basic computer skills. DISK DRIVE REQUIRED. *See important module notice below.

CONSOLE WRITER — 24.95 postpaid

Turns your console into a word processor without disk-drive memory. With just your console, a printer and this unique cartridge program you can begin word processing today. Features include a full screen text editor that lets you Insert and Delete characters and complete lines. The program is extremely easy to use yet powerful enough to handle most home word processing applications. *See important module notice below.

DATA BASE MANAGER — NEW LOW PRICE! 39.95 postpaid

A customized transaction, filing and reporting system for the small business with new improved manual. This comprehensive program controls customer activity, organizes inventory, and tracts business transactions. It allows you to develop and organize your files, design your own screens, customize data entry and index information by multiple keys. A powerful sort utility will organize entire disk files in any sequence by up to six keys. The Navarone Data Base Management System (DBMS) is a series of programs modules designed to provide powerful yet low cost Data Base Management capabilities for the TI-99/4A Home computer. This series of programs are written entirely in Assembly language in order to exercise the full power of your 16 bit computer. The Navarone Data Base Management System is the most powerful data base system available on the TI-99/4A home computer. You can create data bases with up to 25 fields with 32000 records. (record size is limited to 255 bytes). Use the Data Base Management system to keep track of inventory, customer files, or stamp collections. DISK DRIVE REQUIRED. *See important module notice below.

PAINT 'N PRINT — 34.95 postpaid

Create works of art by using the full color palate of your computer and the 32 different brushes available on PAINT N' PRINT. Special features allow you to magnify small sections of your picture for detail painting and move sections of your painting anywhere on the screen. *See important module notice below.

Print hard copies on your color printer or just save on a cassette or disk. Requires joystick or Rollerball controller and printer (See note).

Printer Compatibility: For AXIOM 100TI and AXIOM 700 TI Color Printer, SPECIFY Cartridge A; for AXIOM 500 or Okidata 82A & 92 SPECIFY Cartridge B; for Gemini 10X, Star SG10, IBM, Epson, SCM, and TI Dot Matrix printers, SPECIFY Cartridge C.

For Extended Graphics capability including area fill, circle generation, mirror image, texture, etc. order Accessory Extended Graphics; DISK or CASSETTE (SPECIFY) **$19.95 postpaid**

Astrology-Horoscope Maker — Disk drive required **$19.95 postpaid**

Music Editor — Disk drive required **$19.95 postpaid**

Sprite Editor — Disk drive required **$19.95 postpaid.**

Hidden Powers of Disk Fixer — **A comprehensive 50-page book. $9.95 postpaid.**

IMPORTANT NOTE: Module programs will not run on 1983 V2.2 Consoles without Grom Buster. Check your title screen for compatibility.

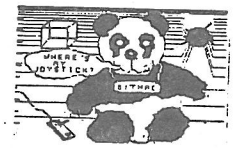
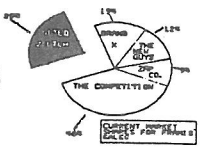
(818) 366-6631 Visa & Mastercard Holders Call Direct 24-Hour Order Line **TEX COMP**



Tex-Comp Proudly Presents BITMAC



Software

The Revolutionary New 99/4A Graphics Program from Vaughn Software

BITMAC is a comprehensive graphics program for the TI-99/4A computer which allows you to easily place "dots" on the screen in any position and in a choice of 16 colors. You can print text ANYWHERE, even on top of existing text! You can print text sideways, upside down, in mirror image, in 16 colors and a multitude of other ways. But BITMAC text is only a small part of this unique program. Other features of BITMAC will allow you to do things like SIGN your name, make perfect circles ANYWHERE, draw lines from any point of the screen to any other point, make perfect rectangles in EXACTLY the position you want them and much more!

BITMAC has provisions for trackballs, joysticks and even a second computer input! If you have a second computer such as an IBM PC, an Apple Macintosh even an IBM 370 main frame there are provisions for your second computer to create graphics with BITMAC!

BITMAC can make "slide presentations" for group meetings (and print the graphics!), give hours of "just doodling" pleasure, create charts for a stock holder report, print camera ready art for business ads, make still cartoon sequences (and print them in one of two sizes), create mechanical drawings, draft floorplans and many other uses!

BITMAC, with a second computer, can plot satellite data, statistical data, computer generated art plots, analog sampled data and just about anything your second computer can throw at BITMAC.

BITMAC offers BOOLEAN disk input (just like NASA enhances photos!) and a wealth of computer enhancement techniques that lend raw power to your ability to manipulate bitmapped graphics.

BITMAC offers icon input that allows you to point at the functions you want. Nothing was spared in making BITMAC easy and simple to use. Even a child can use it!

BITMAC requires either the Extended Basic, Mini Memory or Editor/Assembler Module, as well as a disk drive system, memory expansion and joysticks or trackball (for precision work).

NOTE: Compatible only with Epson, Star 10X or SG10, or other **fully** Epson compatible dot matrix printers (the TI-99/4A Impact Printer made by Epson [MX80] requires the upgrade of a GraphTrax or GraphTrax Plus chip set, available from Epson).

Fully compatible with both TI and CorComp Disk Controller Cards.

ONLY $19.95 +S&H

BONUS: Comes with Free Print Pack & Disk Examples + Sign Maker

GRAPHICS CODE GENERATOR

by Software Carousel

THE EASIEST TO USE AND MOST POWERFUL GRAPHICS UTILITY FOR YOUR TI!

POWERFUL

- Automatically calculates & displays hexcodes in seconds.
- Displays image in their actual size.
- Rotates or relocates your images—makes animation easy.
- Superimposes two or more images.
- Works with up to 4 sprite overlays simultaneously.
- Gives you printouts of hexcodes and color codes.

EASY TO USE

- Use a joystick to "draw" multicolored pictures directly on your screen.
- Save and Load your creations for future use.
- On screen menus make selection fast and easy.
- Works with 6 character positions simultaneously, eliminating image alignment problems.
- Well documented—Easy-to-follow instructions.

GCG eliminates the need to struggle with tedious hexcode calculations. Just "draw" your graphics directly on the screen in full color and let "GCG" do the work for you. The hexcodes generated by this utility can be displayed, printed, saved and even automatically transferred into your program.

You can store individual files such as "car," "tree," "spaceship," etc., and then use them repeatedly in different programs. Even your kids will love Graphics Code Generator!

$14.95 on cassette **$17.95** on disk (postpaid in U.S.A.) Requires Extended Basic & Joystick **SPECIFY CASSETTE OR DISK**

YU-CAN BUSINESS

A complete system for small businesses that do not need the full capabilities of TI-COUNT.

Perfect for home businesses, charitable and fraternal organizations and distributorships (i.e., Amway, Shaklee, Avon, etc.).

Inventory Control—This program enables you to keep track of up to 1,000 items. Once stored on disk, items can be located by record number, stock number or description, and then displayed or printed out for your review. When used with the Order Entry and Invoicing program, Inventory Control will automatically print out a back order report on your invoice.

Order Entry & Invoicing—The *Point of Sale* subprogram will generate a printed invoice for you immediately after entering all order and customer data, or use the Batch Entry option when you require a permanent disk record or your invoices. You can select either option or switch from one to the other for cash or credit sales. Either option will work with the Inventory Control program to keep your inventory up to date and automatically print out back-ordered items on your invoices.

Mail List—This program stores up to 1,000 names and addresses. Adding, deleting, or charging listings is a simple task, and you can design your own format for printing labels. You can also search lists and generate labels and/or reports from any one of the different fields. This program will work with Order Entry & Invoicing to update your list when billing out to new customers.

Requires Extended Basic, 32K Memory Expansion and disk drive.

Comes with all 3 for one low price! ONLY $19.95 Complete

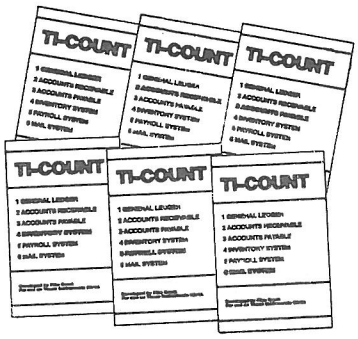
TI-COUNT



SMALL BUSINESS MANAGEMENT

DEVELOPED FOR THE TI-99/4A BY PIKE CREEK COMPUTER CO., INC.

Here's TI-COUNT: a total, cost-effective system for business accounting and operation. Multiplies efficiency... reduces costs ...boosts profits! (Requires Color Monitor or TV, Disk Drive and Controller, RS-232 and 80-Column Printer, Extended BASIC Command Module. Memory Expansion and second Disk Drive recommended.)

TI-COUNT is a complete professional accounting system for the TI-99/4A. Developed by Pike Creek Software, it is the only system to be recommended and endorsed for the 99/4A by TI. This system has all the features of systems costing up to thousands of dollars and many TEX-COMP customers are already running small to medium size businesses on this system. The TI-COUNT system comes in six separate packages and you only have to purchase those packages you need for your particular application. All packages can be used separately except accounts receivable and accounts payable which require the General Ledger package. Pike Creek completely supports this system and even sample forms are provided that you can have printed locally or purchase from Pike Creek. A background in accounting or bookkeeping is recommended to use this system. Requires 32K Memory Expansion, Disk Drive, Extended Basic, and a printer. Reg. $99.95 per package. TEX-COMP price **$69.95 per package**. (Mail system $39.95)

GENERAL LEDGER

Pre-programmed for fast start-up in small businesses. Monitors up to 650 accounts. Operates 5 journals: purchases, sales, receipts, payments, general entries. Updates daily . . . provides interim statements . . . prints closing adjusted and unadjusted balances, summaries, statements and changes. Uses easy-to-follow familiar debit/credit double entry bookkeeping system. **$69.95**

ACCOUNTS PAYABLE

Keeps up to 200 vendor ledger accounts on 1 disk . . . with ID data, terms of sale, cumulative payment, open invoices. Scans bills for errors, immediately prints and files. User controls automatic check-writing and system: pay by age, code, invoice, or specified amount. Produces vendor file list, check register, copy of purchase journal entry. (Requires General Ledger.) **$69.95**

PAYROLL

Automatically provides payroll checks and stubs . . . on your choice of weekly, biweekly, semimonthly, monthly basis, plus W-2 forms yearly. Computes 4 withholding taxes per employee . . . 8 different deductions for each . . . commissions, bonuses, tips, overtime. Keeps up to 100 employee files on 1 disk. Automatically locks for security after payroll is printed. Operates independently or with General Ledger. **$69.95**

ACCOUNTS RECEIVABLE

Keeps up to 200 customer ledger accounts on 1 disk . . . with ID data, cumulative payment, open invoices. Edits, verifies, prints invoices instantly . . . lists receivables in customer accounts. Produces aging summary, billing statements weekly or montly. Guides user through every task step-by-clear-step. (Requires General Ledger.) **$69.95**

INVENTORY

Keeps you instantly abreast of sales, returns, purchases, state of stock. Stores up to 700 items in 4 departments on 1 disk . . . with ID data, vendor, stock, on-order, back-order, reorder, cost, list and selling price, current value for each item. You select periodic or perpetual report basis. Prints labels, invoice forms, computes sales tax and freight. Operates independently or with General Ledger. **$69.95**

MAIL SYSTEM

Change, move, and merge mail files. Add, correct or delete individual names and addresses, sort names and zip codes . . . print mailing labels . . . with automatic reports for each mail file and disk. System also edits and prints letters, labels, cards. Totals active and inactive names, specified search fields, last names, number of names in each state. Operates independently or with Accounts Payable and Receivable Systems to mail to customers/vendors. NEWLY UPDATED FOR BOTH U.S. AND CANADIAN MAIL SYSTEMS. **$39.95**

SPECIAL SAVINGS! PURCHASE ALL SIX PROGRAMS FOR ONLY $349.95

NEW

AUTO-COUNT TAX LOG Record the date, time, place, purpose, odometer reading and driver for each trip on diskette and then print out any selected data monthly or annually. Great for tax records! . . . **$49.95**

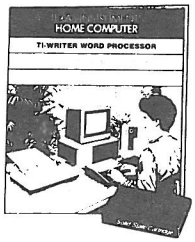
WORD PROCESSING

Software

In order to create and print letters, reports and other documents on your TI-99/4A, you will need word processing software which allows you to type what you want onto the screen, correct and edit it, and then save it on a disk or cassette or print it out with your printer. The most versatille and professional word processing for the 32K memory expansion is TI Writer, developed by Texas Instruments, and 99-Writer II from TEX-COMP. These systems require a complete expansion system including a 32k memory expansion, disk drive and, of course, a printer. TEX-COMP offers several alternatives to permit quality word processing without a disk drive or extra memory. MINI-WRITER I offers many of the features of a professional word processing system, yet works with the TI Mini-Writer Module and a cassette recorder. The TEX-SCRIBER system also uses a cassette but runs on TI Extended Basic and can be later upgraded to disk and extra memory. The new Console Writer allows "instant" word processing with a self-contained module and saves files to disk or cassette. By combining one of the cassette-based programs with a printer interfaced with the Axiom, it is now possible to get into quality word processing at a very low price. On the other hand, with TI Writer and 99-Writer II professional word processing complete with optional spelling checking is well within the reach of every 99/4A owner. TEX-COMP offers everything to make it happen!

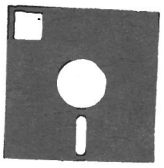


TI WRITER

This is a professional word processing system for the TI-99/4A. Provides the features and ease of use found in office systems. Requires disk drive, 32K memory and printer. Module and Disk. **$38.95**

TI WRITER UPGRADE DISK

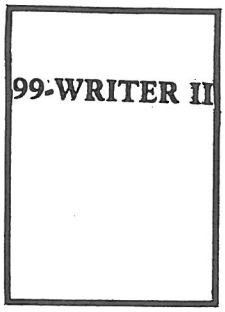
This disk was recently released by TI to improve several areas of TI Writer, such as real lower case letters on screen and formfeed problems in some applications. Also contains Multiplan upgrade to increase speed, etc. **$9.95** postpaid



99-WRITER II

Contains a menu-driven assembly language program which allows the user to load and execute the TI Writer text editor, text formatter, and utility programs, without the TI Writer cartridge. Includes an all new easy-to-follow manual. Also features a custom StarSoft-designed true lowercase character set, to make TI Writer text more readable. The updated, TI Writer text editor (EDITA1 and EDITA2) and text formatter (FORMA1 and FORMA2) files are also included on the disk, making this package a complete word processing system. Requires 32K memory expansion, 1 or more disk drives and either the Extended Basic, Mni Memory, or Editor/Assembler cartridge. Disk only. **$19.95**

SPECIAL: Purchase 99/4A Spell-Check for **ONLY $24.95** when purchased with 99-Writer II.



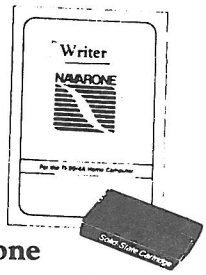
TEX-SCRIBER

Developed by the Text-Tiger company for TEX-COMP, this multi-featured word processing system runs on the TI Extended Basic Module and can be used with cassette and no extra memory or can be later upgraded to disk and extra memory. Comes on cassette with a fully documented instruction manual. **$19.95**

MINI WRITER I

A "mini" word processing program that does not require extra memory or disk. Requires cassette recorder and TI Mini-Memory Module which supplies the extra memory. Full screen editing, 24 x 40 character "window," 9500 characters per file, moveable copy, save on cassette or disk, fully compatible with all direct connect printers such as Axiom which allows a low cost word processing system with professional features . . . this is the ONLY version supported by Model Masters, the original developer. Complete with manual. **$19.95**

SPECIAL: Mini Writer I and TI Mini-Memory Module TOGETHER for only $38.95



CONSOLE WRITER by Navarone

This is a module-based word processing program that is self contained on a TI type command module. Just insert the module and create up to a page and a half of text and print it! Will not work on late model TI-99/4A consoles that display a 1983 copyright notice on the title screen without the use of the Navarone "Grom Buster" **$24.95**

99/4A AUTO SPELL-CHECK

99/4A AUTO SPELL-CHECK for the TI-WRITER

This new program offers spelling checking for the TI Writer Word Processing Program. Comes with a 20,000 disk-based dictionary and you can add your own words. Upgrade your TI Writer to use its full potential power. Rated high and easy to use in the 9/84 issue of Micropendium **$34.95**

Only $24.95 when purchased together with 99-Writer II

NEW!

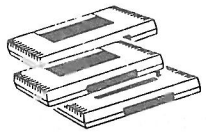
Expand your TI-99/4A Home Computer with a NEW & Exciting Card for the TI Peripheral Expansion Box

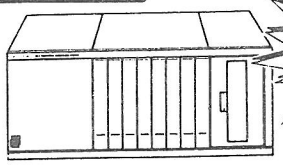
TRIPLE TECH

Special Introductory Price

From CorComp

Fill one slot with power of 3 cards





$109.95 + S&H

1. **CLOCK/CALENDAR:** Provides real time: YEAR, MONTH, DATE, DAY OF THE WEEK, HOURS, MINUTES AND SECONDS. The Clock/Calendar will feature a crystal controlled oscillator accurate to .002% and battery back-up so that the clock calendar will still operate for over six months even with power turned off.

The Clock Calendar can easily be accessed through either TI Basic or TI Extended Basic. This makes the CorComp Clock/Calendar portion of TRIPLE TECH ideal for bulletin board systems, computerized time management and the computing of the hobbyists.

2. **64K PRINTER BUFFER:** The Buffer is virtually compatible with any printer and requires no user modification of software—it installs easily, in seconds. Includes 64k Memory, Copy Function for immediate duplication of print-out and Clear Function to empty buffer.

3. **SPEECH SYNTHESIZER CONNECTION:** Now you can place your TI Speech Synthesizer board into your TI Peripheral Box. You simply remove the TI Speech Synthesizer board from its housing and plug on to TRIPLE TECH!

TRIPLE TECH will allow you normal use of your TI Speech Synthesizer while eliminating the need for the external box plugged into the side of your console.

ALSO

For those of you without TI Expansion Boxes:

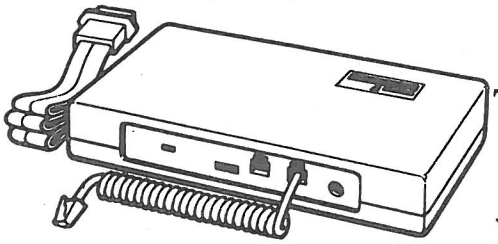
Modems

There's a world of information out there and it's all at your fingertips.

With your TI-99/4A, you can have the world report to you at your home or office on current events, market analyses, travel schedules, sports, banking and literally thousands of other subjects.

The key to this new world of telecommunications and data transmission is your telephone, your TI-99/4A, and a modem to connect them. All modems connect to the 99/4A with an RS232 interface which can be obtained as a card for your expansion box or as a free-standing unit. You will also need software to tell the computer what to do. This is provided by the TI Terminal Emulator II Module, TEIV+ or AMA Amlink. *We recommend the Signalman Mark III direct connect modem, as we helped develop it and introduced it at TI-FEST back in 1982. We also sell the economy model Volksmodem, as well as the 1200 Baud Volksmodem 12 modem for those who need this capability. We also sell special software for this modem as the TE-II does not support 1200 Baud.*



The SIGNALMAN MARK IIIL
TI-99/4A COMPATIBLE
300 BAUD MODEM

$74.95

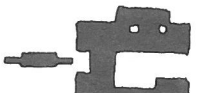
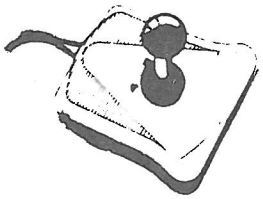
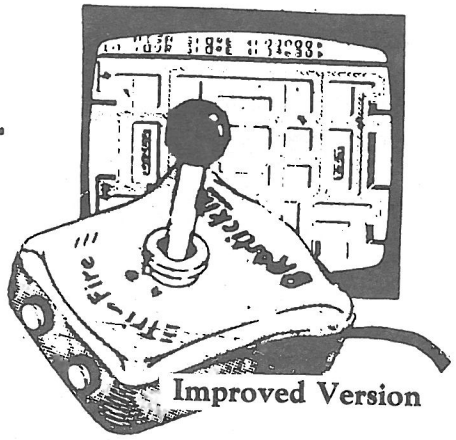
SUPER JOYSTICK II
The Only Joystick that Can Control
THE MUNCH MAN!





$24.95

Plus shipping & handling



IMPORTANT JOYSTICK INFORMATION: Due to the design of the TI-99/4A, conventional 8-way joysticks made by firms such as TI, Atari, Wico, and Super Stik, **DO NOT WORK WELL** on TI maze type games such as the Munchman. The reason for this is that when a diagonal command is received by the computer where only X-Y directions are being used, unpredictable results will occur. For example, the Munchman will miss a turn.

Tex-Comp became aware of this problem and worked with Newport Controls in developing a TI Joystick of arcade quality and **performance**. The **SUPER JOYSTICK II** is that joystick. In fact, the directions and operating instructions were written by Tex-Comp.

This is by far the best joystick available for the TI-99/4A and is backed by a 5-year warranty.

Try the **SUPER JOYSTICK II and reach new heights in performance and in arcade game scores . . .**

The **SUPER JOYSTICK II** permits the diagonal positions to be locked out by the player which greatly increases response and control. 8-way control when needed can be restored by a twist of a knob.

IT'S THAT SIMPLE!!

SPECIAL OFFER:
BUY TWO UNITS FOR SAME COMPUTER & SAVE $10.00.

PRINTER CLEANING KIT

A dot matrix and daisy wheel printer head cleaner from HEAD Computer Products quickly cleans your dot matrix printer heads and daisy wheels to restore clean, crisp printing. Just insert the special cleaning sheet provided in the kit and apply a few drops of the cleaning solution. You actually see the accumulated ink and dirt disappear before your eyes. One kit lasts for dozens of cleanings and will actually extend the life of your printer heads and daisy wheels. Works with all computer printers using dot matrix or daisywheel printer heads. Not intended for thermal or ink jet printers. **$9.95** postpaid

SAVE GAS
SHOP BY MAIL

ADJUSTABLE MONITOR SWIVEL BASE

The TILT & TURN STAND tilts, swivels and adjusts for maximum visibility with minimum glare. It will make your computer workstation more flexible and comfortable. **$24.95** postpaid

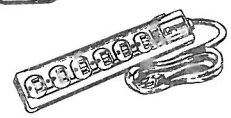
RS232 SURGE PROTECTOR FOR MODEMS

Designed to eliminate power spikes and surges generated by static discharges from damaging modems. Comes with a Female DB25 on one end and a DB Male on the other end with gold plated pins. All 25 pins are wired through. **$22.95** postpaid

MODEM DIAGNOSTIC TESTER

This miniature RS232 tester is designed to monitor RS232 lines. This tester is very useful in diagnosing RS232 communication problems. All power for the LED's is provided by the RS232 line. There are 7 different colored LED indicator lights to monitor the following functions: Receive Data (RD), Clear To Send (CTS), Data Terminal Ready (DTR), Request To Transmit Data (TD), Request To Send Data (RTS), Data Set Ready (DSR), and Carrier Detect (CD). **$24.95** postpaid

DATAGARD® BY SGL WABER®



SPIKE AND NOISE SUPPRESSOR

Protect sensitive computers from damaging voltage spikes and noise interference.

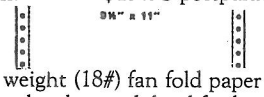
DATAGARD helps avoid information loss, false input/output, equipment failure, and system downtime and costly service calls. Lighted switch circuit breaker, 6-foot cord, 6 outlets **$39.95** postpaid

SGL WABER linegard

LINEGARD SPIKE SUPPRESSOR

Before you plug-in your computer, you'd better consider how you are going to insure or protect your investment from unwanted electrical pollution.

LINEGARD protects against damaging voltage spikes which can degrade or destroy the internal components of your solid state equipment. Acts as a "shock absorber" without interferring with normal current flow! Just plug it into any 15A, 125 VAC outlet. Wall plug-in unit, 6 "U" ground outlets, indicator light, and internal overload protection. **$19.95** postpaid.



PRINTER PAPER

This high quality, heavy weight (18#) fan fold paper which Tex-Comp buys direct by the truck load for big savings. 3000 sheets **$24.95**

Shipped freight collect surface UPS only! (weight 35 lb. shipping)

RIBBONS

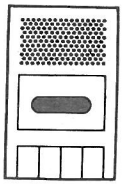
Be sure to specify your printer make & model with your order.

AXIOM GP100TI (also fits Seikosha 100 & Gorilla Banana)
—2 Pak **$24.95**
TI IMPACT Printer & Epson MX80—2 Pak **$19.95**
AXIOM GP550TI—2 Pak **$24.95**

NOTE: Gemini 10X and Star SG10 use standard typewriter ribbons available at all office and stationery supply stores.

Accessories

CASSETTE RECORDER



Built by General Electric, who made the original TI data recorder. We found the GE unit with the same specifications as the original TI and offer it with an original TI cable and the complete TI cassette owners manual. Includes volume and tone control and counter. **ONLY $34.95 + S&H**

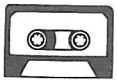
CASSETTE ADAPTER

For reversing remote polarity on noncompatible cassette recorders. **$7.95**

CASSETTE PLAYER CLEANING KIT

A wet type non-abrasive audio cassette. Dirty cassette player heads are the #1 cause of data loss." Will clean tape heads and restore sound quality. .5oz. cleaning solution included. **$7.95** postpaid

CASSETTES



TEX-COMP offers data quality cassettes loaded with world famous BASF tape at the lowest possible price. TEX-COMP has these cassettes custom made to TI quality standards using premium 5 screw shells. They are supplied in quantities of 12 in a plastic storage case. Tapes are C-12, which means that they have 6 minutes on each side—long enough to hold several programs. Most users prefer to have one program per cassette to avoid searching for tape areas for different programs. 12 C-12 tapes come packed in a handy plastic cassette storage caddy. **$12.95** postpaid

HEAD DISK DRIVE CLEANING KIT

The HEAD Disk Drive Cleaning Kit removes debris from your disk drives without abrasion and without disassembly. Recommended for use at least once a week. It removes oxide deposits, smoke particles, and skin oils which "ALL CAN CAUSE LOST DATA AND DISK ERRORS."

The cleaning disk inserts like a regular disk and comes complete with cleaning disks and TI approved cleaning solution. **$15.95** postpaid

DISKS • Free Library Case with each order of 10 diskettes.

All disks are premium quality and come with envelope, labels, write protect labels and hub reinforcement.

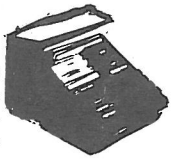
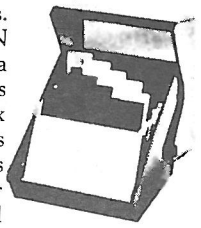
FLIP 'N FILE for TI Modules and Cassettes

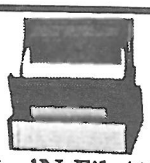


This is the ONLY storage unit which provides a perfect fit for TI Command Modules. Each TI Module fits into a separate compartment for complete protection. Comes with a hinged smoked plastic cover for complete protection from moisture, sun, and dust. Each unit holds 18 modules or program cassettes. By keeping your modules in these units, you will always know where your modules are at a moments notice. TEX-COMP takes pride in originally introducing this fine product to the 99/4A users in its first catalog mailing over five years ago. **$16.95** postpaid

FLIP 'N FILE for 5¼" Mini Disks



Protects floppies from dust and other contaminants. Keep your valuable disks safe with the original Flip 'N File Disk Storage Case. This is the original . . . not a cheap imitation made of substandard materials. Holds 50–70 disks. Comes complete with dividers and index tabs. Built-in carrying handle and hinged cover makes this unit the best buy on the market. TEX-COMP has sold these units for over five years with total consumer satisfaction. **$14.95** postpaid



COLOR CODED Flip 'N File/10 NEW LOW PRICE

Organized filing system for diskettes. This filing and storage accessory for 5¼" diskettes is designed for light workstation use and library storage.

Units come with both index and spine labels. Indexed information can be viewed from both open and closed positions.

Specially hinged, easel-type design makes an efficient workstation. When opened, front panel moves forward allowing user to fan through contents without risk of bending diskettes.

Contains 5 each colored Flip 'N File/10's for 5¼" diskettes. Each unit will hold up to 10 diskettes. Each unit comes with both spine and front panel labels.

$9.95 + S&H/for 5 units

DEMO DISKS

ORIGINAL TI-99/4A SALES DEMO DISK

This is a disk packed full of demo programs that were supplied to the original TI-99/4A dealers such as Tex-Comp by TI. It contains sample programs and demonstrations of graphics, speech, personal report keeping, and games. Comes with complete documentation. Includes complete TI-TREK game which alone sells for over $10. Speech capability required on two of the programs. Free bonus disk now also contains TE-II version of TI-TREK in addition to speech editor version. A programmer's dream! **$9.95** postpaid

TI MUSIC/GRAPHICS DEMO DISK

Contains a great collection of music and matching animated graphics. Great examples of music and sprites! Requires 32K & Extended Basic. **$7.95** postpaid

TI EXTENDED BASIC MUSIC DEMO DISK

A collection of beautiful computer arrangements of popular hits. Requires Extended Basic, 32K. Also contains great Extended Basic Catalog/Loader program that can be used on other disks. **$6.95** postpaid

SPACE SHUTTLE MUSIC/GRAPHICS DEMO PROGRAM

This programming is one of the finest examples of TI-99/4A Extended Basic programming we have seen. It is a very long running epic saluting our space program. You will run this disk over and over again in absolute amazement. This PD disk is a must for every 99/4A owner with Extended Basic, 32K, and an interest in music, graphics, and data file access programming in Extended Basic **$6.95** postpaid

GEMINI 10X/SG 10 & EPSON DEMO DISK

This is a disk that puts your dot matrix printer through its paces so you can actually see all the special features. The programs are all unprotected so you can list them out and see just what commands give you the features you want. **$7.95** postpaid

PRINTART DEMO DISK

This is a collection of programs that print out picutres of near photographic quality on your dot matrix printer. Many familiar TV and comic characters are included. Extended Basic & 32K required (2 disks). **$12.95** postpaid

Epson printers may require Graph Trax Plus to run some programs.

FIGURE STUDY DEMO DISK (PG RATED)

This disk contains programs that print out an illustration similar to a centerfold. 32K and Ex-Basic or TI-Writer. **$7.95** postpaid

TI FORTH DEMO DISK

Assortment of music and fantastic graphics written in Forth. Requires Ed/Assem. Module, 32K. NOTE: This disk can only be backed up with Forth or with the "NIBBLER" backup program. **$9.95** postpaid

Tex-Comp reviews all available books applicable to the TI-99/4A and only select for sale those books which offer something of value to our customers. While there may be other books in print on the 99/4A, we have found most of them to be merely a repeat of books we already offer or just an attempt for some author or publisher to make a quick buck. Before we place a book in this catalog, we review it ourselves and test market it at our retail store. We don't attempt to carry "everything" for the 99/4A. Only those products that offer something of value to our customers and are worth owning, this is our pledge to you, the TI-99/4A user, from us. . .Tex-Comp TI users supply company!!!

The Last Word on the TI-99/4A

by Linda Schreiber

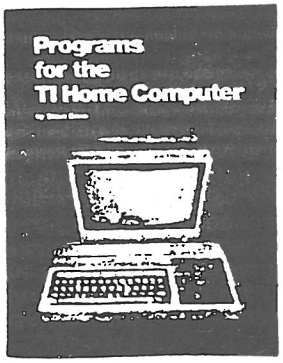
An outstanding addition to TAB's exceptional, best-selling series of programming manuals, this is an indispensable guide for every TI user. Schreiber explores the myriad programming possibilities of the TI-99/4A: arcade and family games . . . educational programs . . . financial, medical, and hobby applications . . . message cener and security uses . . . and more! There's valuable information on the computer's architecture and the fundamentals of building a program, plus explanations of commands, functions, screen displays, and program and data storage.

HIGHLIGHTS: Commands, Statements and Functions—Making Decisions—Arithmetic Functions—Finding and Trapping Errors—Special Functions—Advanced Programming Skills—Sprites—Using the Disk—Putting it All Together **$10.95**

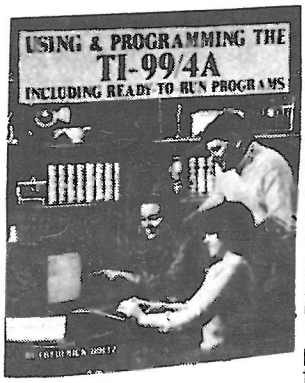
HIDDEN POWERS OF DISK FIXER

by Bill Gronos

This book fully covers the many secrets of the famous Navarone Disk Fixer Module. It goes far beyond the instructions provided with the module and covers areas never before in print. Topics include removing protection, and many other unique tricks. This book is a must for anyone interested in exploring the innermost secrets of the 99/4A **$9.95**



Fifty unique programs in TI BASIC and TI Extended BASIC are presented in an easy-to-read format, ready for the user to type in and use. Most of the programs are listed in TI BASIC and may be used with just the computer console and a cassette recorder, while others take advantage of the special capabilities of optional TI modules and peripheral equipment, such as TI Extended BASIC, Mini-Memory, Terminal Emulator II, the TI Speech Synthesizer, a printer or the disk system. A wide variety of programs for home applications are featured, including games and entertainment, educational programs, programming aids and more. Best of all, this volume offers programs that highlight tge many unique features of the TI Home Computer, such as color, graphics, music, sound or speech. Beginners and experienced TI Home Computer users alike will find this collection to be an entertaining and useful addition to their program library. **SPECIAL NEW LOW PRICE** **$9.95**

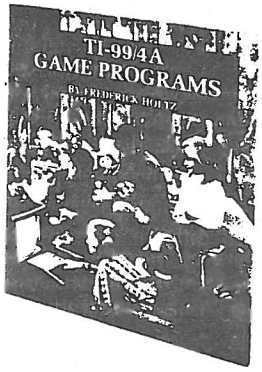


Using and Programming the TI-99/4A, including Ready-to-Run Programs

*An Instant Success With TI-99/4A Owners Everywhere!

Finally, there's a book that shows you how to get the most use and the most enjoyment from your TI-99/4A! Here's easy-to-follow, hands-on guidance in every phase of TI-99/4A operation—machine capabilities including color, graphics, and sound, TI BASIC programming techniques, information on peripherals for your machine and a listing of over 200 pre-packaged software programs currently on the market.

Plus, there are 12 highly useful programs complete with listings and use instructions and all the information you need to start writing your own original TI programs! **$9.95**



TI-99/4A Game Programs

An Irresistible Collection of Skill-Building and Just-For-Fun Programs!

An exciting collection of games, puzzles, and brain teasers written especially for the TI-99/4A! Each one is designed to take full advantage of your micro's color, sound, and graphics capabilities, and all will run with only the TI BASIC built into your machine.

Here's your chance to enjoy the best in TI-99/4A game playing without having to invest in high-priced commercially packaged software! Includes easy-to-follow programming instructions, line-by-line descriptions, and explanations of the logic used in prigram development so you can modify or improve the games for your own purposes—you can even start writing your own original game programs! **$10.95**

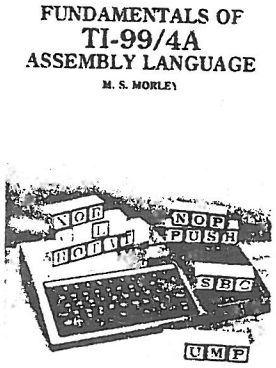
INTRODUCTION TO ASSEMBLY LANGUAGE FOR THE TI HOME COMPUTER by Ralph Molesworth

This new book is a tutorial for the beginner wanting to learn TMS9900 Assembly Language. Assembly language unlocks the power of the TI Home Computer, allowing the users to write programs that run faster and more efficiently than programs written in high-level languages like BASIC. This is a step-by-step instructional text for the person who is familiar with TI BASIC but cannot understand the TI Editor/Assembler manual. There are program examples included that may be used by those with Editor/Assembler or Mini-Memory. Whether you wish to begin writing complete assembly language programs, short assembly routines, or if you just wish to have a better understanding of how your home computer works, you will get the knowledge you need from this easy-to-read guide. Edited by Steve Davis. **SPECIAL $9.95**



Fundamentals of TI-99/4A Assembly Language by M.S. Morley

The first two TAB TI-99/4A programming handbooks are runaway bestsellers. Now, TAB introduces still another exceptional new sourcebook—a comprehensive, easy-to-follow guide to programming in assembly language for faster program execution and more efficient micro use!

There are full details on 16-bit data transfer, code conversion and sophisticated applications like the manipulation of tables and lists. Detailed data on the 9900 instruction set and data sheet. TI-99/4A technical information, and the mini memory module is provided. **$10.95**

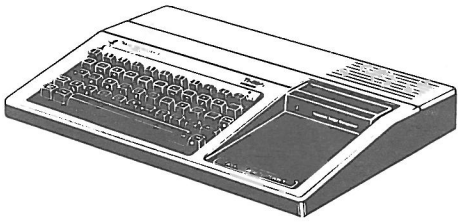
TEX-COMP

Message from Tex-Comp



Dear TI-99/4A User:

Welcome to our newest catalog, marking **Tex-Comp's six-year anniversary** supporting the 99/4A user with the best selection of products at the lowest possible prices.

Tex-Comp was founded in 1980 by TI-99/4 users to serve other 99/4 users. Since that time, we have shipped thousands of orders each year to every state in the union and almost every country in the free world. We have shipped TI-99/4A products to such devine places as the White House, the Vatican, the U.S. Secret Service, the Government of Israel, United States Naval Vessels, and believe it or not, to TI itself.

We truly regard our world-wide customers as friends. Many even stop to visit and say hello at our warehouse outlet store when they are in Southern California, and they send us photos of their systems, as well as sample screens or graphics created with software they purchased from us.

In order to continue our commitment to support the TI-99/4A user, we have purchased large quantities of software and hardware, including consoles, directly from Texas Instruments and major distributors and dealers who have left the business.

All of our TI-made products are factory sealed and fully warranted by TI. We have also entered into long-term agreements with TI and third-party software developers to publish outstanding disk and cassette software for the TI-99/4A.

In the last year, we have seen more new hardware and software introduced for the TI-99/4A than ever before, including such outstanding products as **Triple Tech** by CorComp, **Data Base Management** by Navarone, **Adventure Editor**, **99-Writer II** and **Banner-99** programs—just a sample of the new, reasonably priced software being introduced for the 99/4A.

Tex-Comp, as always, continues with its long-term policy of only carrying products that are practical, readily useable and reasonably priced and, in addition, represent **true quality and value** to the user.

All new products are tested and evaluated by a group of our customers before we even offer them in our catalog or through national advertising. We turn down far more products than we offer for many reasons—if the product duplicates an already available item, is of poor quality or is of no practical use.

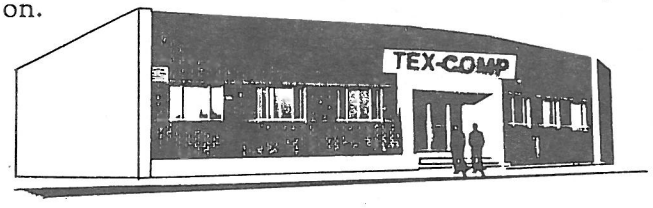
We have rejected entire lines of products when we evaluated them and found them not only of poor quality, but also a poor value.

We deeply appreciate all the support you, the **TI-99/4A users**, have given us, and we take the responsibility of being the largest exclusively TI-99/4A supplier in the world very seriously.

You can be assured that we will continue to offer the product selection, low prices and prompt, professional services that our firm is built on.

Sincerely,

Tex-Comp



P.S. When you're in the Los Angeles area, be sure to visit our warehouse outlet store, where all items in the catalog are available at the regular discount price.

Ordering Instructions

TEX-COMP is the largest independent TI-99/4A retailer in the world. TEX-COMP has been serving 99/4A users in the United States, Canada and in over 30 foreign countries since the introduction of this powerful microcomputer in late 1979. TEX-COMP has continued to search out the finest products available for the TI-99/4A and offers them to you at the lowest possible prices.

****

Two convenient ways to order:

1. Order By Mail. Use the convenient order form on the next page. Complete information including exact title, version (i.e., disk or cassette) will eliminate delays in processing your order. Always provide a street address since we use UPS whenever possible and they do not deliver to P.O. Boxes.

2. Order By Telephone. Tex-Comp maintains a modern 24-hour electronic order service which is in use whenever our operators are busy and after normal business hours. Tex-Comp receives over 400 calls each day, so we must rely on this system to keep costs down, which we pass on to our customers. When ordering, provide your name, shipping address including zip code, and an evening phone number where we can reach you in the event of a question on your order. Next state your credit card number and expiration date. Finally, give us each item you wish to order exactly as it appears in the catalog. We process all orders within 24 hours.

Visa and MasterCard. For added convenience you may charge your mail or telephone order. Complete all information required on our order form or telephone order system. We can only ship to the address of the card holder.

All prices in this catalog reflect a 3% discount for cash or approved check. Add 3% if using a credit card as this is what the banks charge us to use this service.

Prices. Due to market factors, prices and availability are subject to change without notice. You will always be billed at the lowest prevailing price. We reserve the right to correct typographical errors. All products are subject to prior sale.

Sales Tax. We will add sales tax on *all* shipments to a California address as required by law.

Damages. All Tex-Comp orders are shipped insured. If a package arrives in damaged condition, be sure to notify the carrier and advise us so a claim can be filed. Keep the shipping carton and products intact until the claim is resolved.

NOTE: Tex-Comp ships thousands of packages each year to almost every country in the world and we have almost a 100% record of merchandise being received as ordered in good condition.

Shipping Charges. See the order form for proper shipping charges. Many items in this catalog are postpaid when surface UPS is used. We must charge additional for shipments out of the continental US due to the additional costs and paper work. The charges we impose reflect our actual cost of this processing.

Returns. Absolutely no returns will be accepted without prior written authorization. TI requires that all TI products be returned directly to its warranty centers for adjustment. Any shortage in an order must be reported in writing within 10 days of receipt.

ORDER BY PHONE 24 HOURS A DAY 7 Days a Week!

It's Fast & Easy to Order by Phone. Here's How.

1. Please write your order on the order form included in this catalog. This will enable us to handle your order faster.
2. This is the information we will need to fill your order.
   a. Your name, complete street address including zip code.
   b. Your credit card number and expiration date.
   c. An evening telephone number where we can reach you.
   d. A complete description of each item you are ordering.
   e. Any special offers you are taking advantage of (these must be requested at the time of order).
3. That's all there is to it. Our trained order taker or electronic system during peak hours and after business hours will rush your order into our computerized processing for prompt shipment.
