

TI-99/4a SOFTWARE FROM TEXAMENTS

TI ARTIST

The #1 selling and supported graphics drawing package for the TI-99/4a! This easy-to-use program will have you drawing and creating images before you've even finished reading the instructions... the picture oriented menu system is easy to use and informative. Some drawing features include continuous point-to-point lines, rays, fills with various patterns, frame, box, circle, alphanumeric lettering in 81 sizes, multiple brush sizes/styles, magnification, zoom, and mirroring in four quadrants. Images can be moved, copied, and flipped. Pictures, instances, and fonts from various supplemental graphics packages (including our famous Artist's Companion series) can be easily used with TI Artist. TI Artist can produce excellent user adjusted screen image dumps using Epson, Prowriter, Okidata 92/93, and Axiom GP-550A compatible printers. Requires: 32K, disk system, and either XB, E/A, MM, or TI Writer module. **Only \$19.95**

DESIGNER LABELS

Did you ever wish you could print graphic labels using your TI Artist instances? Now you can! Designer Labels will allow you to print any label you design with TI Artist, as many times as you want, and in a number of standard mailing label sizes. It will even print on 3x5 and 4x6 index cards! Also included with Designer Labels are two complete sets of monogram instances. Requires: 32K, disk system, and either Extended Basic or Editor/Assembler modules. TI Artist is recommended. **Only \$9.95**

(Artist's Companion #1 excluded)

ARTIST'S COMPANION #6

Another two disk set for TI Artist packed with new and exciting fonts and clipart. A total of 13 fonts and 24 instances are included. The fonts go beyond the imagination... Cabaret, Gatsby, Orient, Music, and Stacked are remarkable. Four of the fonts are small and complete. Requires: TI Artist or another compatible graphics package. **Only \$9.95**

ARTIST'S COMPANION #7

Let your TI Artist grow by adding Artist's Companion #7 to your graphics collection! This two disk package includes 10 fonts, 13 large instances, and 46 small instances. Scroll, an extraordinary font comprised of a font and graphics, is also included. Requires: TI Artist or another compatible graphics package. **Only \$9.95**

DISPLAY MASTER

Display Master opens a new dimension of utility for TI Artist: the ability to perform 100% user defined screen presentations. Any picture drawn using TI Artist may be used in a wide range applications with the help of Display Master. You can create show demonstrations, teaching aides, store displays, video clips, and much more! Display Master's special command set allows multiple picture loading, user defined windows with captions, screen and window color control, video on/off control, bordering, plus more. Command files are easily created using any text editor that generates TI Writer compatible files. Requires: 32K, disk system, and either XB, E/A, or MM. TI Artist is recommended. **Only \$14.95**

ARTIST EXTRAS

Artist Extras is a collection of TI Artist odds and ends. It includes 14 fonts, 5 small pictures (instances), 6 detailed full screen pictures, and DSR routines used to interface a mouse and Super Sketch pad to TI Artist. Requires: TI Artist. **Only \$6.95**

CSGD I

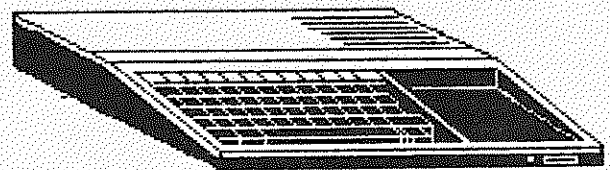

Character Sets and Graphics Design I (CSGD I) is a powerful printing package that allows a user to create numerous designs using various fonts, small pictures, and large pictures. CSGD I can be used to create letterheads, greeting cards, signs, advertisements, plus more. New fonts and pictures can be created using the various graphic editors which are included. Also included are 10 fonts, 10 small pictures, and 3 large pictures. Requires: 32K, disk system, XB, and either an Epson or Prowriter compatible printer (please specify). **Only \$17.95**

CSGD II

Character Sets and Graphics Design II (CSGD II) is the second in a series of related software packages and is a direct complement to CSGD I and CSGD III. It consists of a graphic banner maker that can create awesome banners using any of the available CSGD small pictures and CSGD fonts. 8 fonts and 65 small pictures are also included. Requires: 32K, disk system, XB, and either an Epson or Prowriter compatible printer (please specify). **Only \$12.95**

CSGD III

Character Sets and Graphics Design III (CSGD III) offers four new and powerful graphic printing capabilities to the TI-99/4a user. Now you can easily create letterheads, stationery, labels, and signs with a wide range of unique fonts and small pictures. Letterheads, stationery, and labels can be designed, saved to disk for later use, and printed continuously for your convenience. Plus, using the special Docuprint program, files generated by TI Writer can be printed in any one of six full graphic character sets. No longer will you have to settle for your printers resident character set! The complete three disk package comes with 25 fonts, 40 small pictures, and thorough documentation. Requires: 32K, disk system, XB, and either an Epson or Prowriter compatible printer (please specify). **Only \$17.95**

CSGD CATALOGER

The CSGD Cataloger offers three unique and very useful programs for printing graphic catalogs of all your CSGD fonts and small graphics to paper for easy reference. Furthermore, the CSGD Cataloger will allow you to create and print cross reference sheets of all your CSGD and TI Artist fonts and small graphics (instances). Requires: 32K, disk system, XB, and either an Epson or Prowriter compatible printer (please specify). **Only \$6.95**

RAPID COPY

If you're tired of waiting for your disk manager to copy or format disks, try Rapid Copy, the only turbo copier specifically designed to take full advantage of the Myarc, CorComp, and Texas Instruments disk controller cards. How fast is Rapid Copy? Copying a double-sided double-density disk takes only 1 minute 17 seconds, which includes formatting the target disk! On average it is six times faster than the disk copy functions of the Myarc, CorComp, and DM1000 disk managers. Rapid Copy, endorsed by Myarc for use with its disk controller, includes a new modified version of the Myarc disk manager that allows you to load it from within the utility option for your convenience. Simple to use and fully menu driven, Rapid Copy allows a multitude of copy and format options. Requires: 32K, disk system, and either XB, E/A, or TI Writer command module. **Only \$14.95**

XB DETECTIVE

If you develop, alter, or debug programs in either BASIC or Extended BASIC, XB Detective is definitely for you! XB Detective is fully menu driven, totally interactive with your programming environment, lighting fast, and may be used list variables, find variables, find reserved words, delete lines, and find strings within your programs. This programming aide works transparently in the Extended BASIC environment and is instantly accessed with a touch of the hot key! Requires: 32K, disk system, and XB. **Only \$9.95**
