# MYARC™

DOUBLE SIDED, DOUBLE DENSITY, DISK CONTROLLER.

- Read or write in three formats.
  -Standard single density.
  -Standard double density.
  -Non-standard double density.
- Lightning fast operation. Much faster than original equipment. Faster than competitive units.
- New commands greatly enhance the operating system.
  Call DIR (x): allows the user to catalog any of four disk drives without overwriting memory!
  Call LR: Emulates the call load command.
  Call LLR: Emulates the call link command.
  Call ILR: Emulates the call init command.
- Track access time may be set for any, or all of four drives. This allows the user to take full advantage of the new 6ms units for speed.

- Manufactured in the U.S., to strict quality levels. This will insure high system reliability unmatched in the industry.
- Includes cabling, manual and disk manager.
- Myarc's Level III disk manager allows flexability and features that are unsurpassed! Full screen editing.
- Single key operation.
- Fast copy for high speed duplicating.
- Single stroke file handling.
- Editor assembler load and run screen.
- Formats in single sided, double sided, double density standard, and double density non-standard formats.
