PRESIDENT'S LETTER

On average I receive from 15 to 20 phone calls a month from new TI-99/4A owners and others who have had their magic boxes for a time but have finally reached their frustration limit, and realize a call for help is their only recourse. To all of those who have called I'd like to say "Thanks". It's absolutely amazing how much you can forget about this machine when you haven't worked in console basic or used a cassette for loading in over a year. Then too, when you've had the machine for a long while you forget all of the little pitfalls of programming you avoid by 'reflex' having been bitten a few times when you first started.

One of the most often asked questions is "How can I learn BASIC easily?". The answer to that of course is "You can't". There are a couple of books available which are better than what you receive with the computer, but still, the only way is to sit down at the console and either write your own program or modify someone elses'. I can see by the questions I receive that it is time to publish a sheet of helpful hints for the beginning computer genius. (It would also be a handy reference guide for those who have short term memories, such as myself.) I'll get the information together and hopefully we can include it in a newsletter soon. Meanwhile ... keep calling, I'm learning more from you than you can imagine!

→ By the way, we have to begin looking for a new meeting place. We MUST have a new place by the January '83 meeting, so ... suggestions are heartily welcomed ... and encouraged ... think about this and call us ANYTIME. You can call the TI Store and leave messages for Jane or call me. Bill Hunt has been very kind to allow us the use of the store these past few years, which we greatly appreciate. For the December meeting we would like to have a party either at someone's home or clubhouse ... please think about it and come to the November meeting with suggestions on both these subjects!!! ←

Don Wells

1982 OFFICERS

President: Don Wells, 10107 Westview, #112, 77043; 984-9338
Vice-Pres: Jane McAshan, 1719 Briarwood, 77057; 783-2135
Treasurer: Curt Garcia, 10202 Forum Park Dr., #310, 77036; 774-6881
Librarian: Bill Delvalle, 3623 Kingsman Dr., 77082; 870-8869

NEWS FROM BILL HUNT

>>> We now have PERIPHERAL EXPANSION SYSTEMS IN STOCK!!! <<<<
Also Disk Controller Cards, Disk Drive Cards, and Memory Expansion
Cards are available. If you are interested, please call the store at
961-5822 and ask to have one held for you!

New software - Typing Tutor, PHM 3064 - There are 3 sections to
cover Lessons, Diagnostic and a practice Game. If you are a beginning
typist start with the Lessons section and then get more practice with
the Game. If you already know how to type, the Diagnostic section
will analyze your speed, and identify keys that need more practice.
You can then go to the Lessons and Game, but at a speed that will
provide a challenge for you.

Also new - Reading Flight - for grades 5,6,7 provides practice in
classifying information, summarizing information and outlining. The
lessons are colorful and interesting - with a game at the end of each
section as an award.

>>> MANAGER'S SALE <<<

For a limited time the TI Store is having a 33% off Sale on all
Third-party Software - programs from Futura, Not-Polyoptics, PDI, and
Creative Computing are included. Limited to stock on hand!

THIS MEETING

We will have a report on TI-FEST by Jane McAshan and
Wayne Wright for our program. The Election of Officers
for 1983 will also be held this Sunday. Officers to be
elected will be President, Vice-President, Treasurer,
and Librarian. (The Librarian needs to have a disk
system!) The new officers will take over at the January
meeting.

ODDS AND ENDS OF INFORMATION

Dan G. Luce, 463-0196, is interested in selling or
trading his Thermal Printer. He is primarily interested
in a RS-232 box plus a synthesizer, modem or cash.

Compute! magazine is looking for applications and
articles on the 99/4A. Write them at 625 Fulton St.,
Greensboro, NC 27403.

The 99'er magazine has gone monthly! The November
issue is in the mail now, if you haven't got it by the
time of the meeting, there will be a copy at the store.

The TI Newsletter is at the press now, so hopefully
you will be receiving it sometime in the next month.

>> CHRISTMAS PARTY <<

Our December meeting will be a party at a location to be announced
later (see Don Well's letter). To make the occasion festive we are
asking everyone to bring a program on cassette or disk (NO third-party
or TI software please!), we will then exchange the programs as
Christmas gifts. Also, please plan to bring some edible goodies -
dips, chips, cookies, cakes, candy, etc... This will be a chance to
visit with other members of the group (and, if there is room, their
better half).
