### LAST MEETING

Our last meeting was held November 20, 1982 in a meeting room courtesy of Lyndon Kountry Key Market. During our business meeting we discussed the need for a new meeting place since the house was packed. There were approximately 70 people in attendance. We don't want much; just a place that is free, can hold in excess of 100 people and is available on Sunday since that appears to be our most popular meeting day. We need the help of every member. If you know of a meeting place contact one of the officers. Thanks to Herb Rutledge, TI District Manager, who highlighted our program with a detailed discussion of the Peripheral Expansion Box and related equipment. He also demonstrated the new TI Printer with the PEB. Hunt The Wumpus and Parsec were also demonstrated.

#####

GOOD NEWS!!

It was reported at the last meeting that 99'er Magazine has definitely decided to go monthly. One of our members had their \$18.00 check returned with a note that the subscription will now cost \$25.00 per year because of monthly issues.

#####

The following page lists as much information about tape recorders as we have been able to accumulate to date. As you can see we do not have complete information on every recorder listed. If you know anything about any of the recorders that will help us complete our information or if we have not listed one that you know works, please mark up the page and return it. We will try to get all of the blanks filled in and keep the list up to date.
