LETTERHEAD
CONTEST!

SEE YOUR WINNING LETTERHEAD IN THIS SPACE !!!

1. Entries are to be no larger than 8 1/2 by 2 inches.
2. They do not have to be a program.
3. Officers and their families are not allowed to participate.
4. The officers will be the judges.
5. The winner will receive a years FREE dues.
6. Entries must be in by June 29th, 1983.

HELP!!! Our Group is outgrowing our meeting place! Greg is in contact with the Jaycees trying to get permission to meet in their hall above the House of Sounds. If anyone else knows of a place we may be able to meet please contact one of the Officers.

It will be necessary to rotate among the members the responsibility of supplying a system for the meetings. Arrangements to get programs from the Software Library will have to be made at the meeting for pick-up at a later time. A cassette based system is all that will be necessary at the meetings.

Do we want a Refreshment Committee?? Can the men live without their coffee for a whole meeting???

MEETING FORMAT

Should we continue with two meetings a month? The alternatives brought up at the last meeting were: a) To drop one of the meetings or b) To make one meeting a business meeting and the second a Workshop with structured instruction in programming and other Topics.

What do you think??? Is the present format meeting our goals??? What definite topics do you want the Group to cover??? Let's hear from all you silent members!!!!

SOFTWARE LIBRARY

Do we want the Software Library to include a short description of each program? If so, we need volunteers to help write the descriptions. Cindy and Les will then put them in a directory using TI-Writer.

MEMBERSHIP

We now have twenty-one member addresses. That represents about thirty-two people. John Knarr of Fort Wayne and David Renkenberger of Wabash are our newest members. John is opening a store in North Manchester and is trying to start a User's Group in Fort Wayne.

COMPUTER FAIR

The Miami County Computer Society is planning to hold a Computer Fair sometime in June or July. It is in the planning stages now. They have invited us to participate. Does anyone have any ideas for a booth? We need volunteers (again) to design, set-up, tear-down, and man the booth. What software should we show? Should we have more than one system there??? We also need volunteers to bring their systems. If you can help in ANY of the above areas, please contact one of the Officers or come to the meetings.

MEETING NOTICE

The Group voted to hold the June 22nd meeting on June 29th. This keeps the meetings two weeks apart. Make a note of this on your calendar!! The meeting will be held at Les and Cindy Cattin's, 163 West Third. Phone: 473-3776.

SOFTWARE DIRECTORY

TI is publishing a Software Directory of TI and Third-Party Software. It will be coming out in June and each User's Group will receive a complimentary copy. The retail price is \$5.95.

NEW SOFTWARE

We have received another disk from TI. There are programs to keep Basketball statistics, a message and graph generating program, and three games. All of the programs are in Extended Basic and all could be copied onto tape except maybe the Basketball Stats. I still have to take the time to examine the basketball programs to see what equipment is necessary. Derek Pollard brought several new programs to the meeting, also. They are games and as soon as I get them on a disk they will be available for copying. I think some of them are in Basic.

LETTER

We received a letter from a man in Emison, In. who is looking for a spreadsheet program similar to Multiplan only MUCH smaller. He runs a Feed and Grain Company. Mr. Ivers has a Cassette based system with Extended Basic. Can anyone help him ?????

SUBMITTING SOFTWARE

Anyone wishing to submit software to TI for distribution to the User's Groups may do so by sending it to Ed Weist. It is necessary to include the disclaimer statement which is in the back of the manuals when submitting a program.

LIFE MAGAZINE

We have received a letter from Life Magazine. Life is looking for an average American family who happens to own a Home Computer. They would like us to send them a nominee who is not involved with computers in their work. If anyone would like to suggest someone send your letter to:

Time and Life Building
Rockefeller Center
New York, New York 10020
attn: Linda Gomez

FREE SUBSCRIPTION

The User's Group will be receiving a free subscription to 99'er Magazine. 99'er has also sent trial subscription forms. The first issue is free. If anyone wants one please contact Cindy Cattin at 473-3776.

KENTUCKIANA

We have received a newsletter from the Kentuckiana User's Group. They meet at the University of Louisville, Shelby Campus. It is a nice newsletter.

PROGRAMS

Several flyers have come in advertising programs. TheobYTE carries Religious Programs, Tigercub Software has 92 various programs. Tigercub's programs are available on cassette only and are written in Basic. All of the programs are inexpensive.

NEXT MEETING

The next meeting of the Miami County Area 99/4A User's Group will be June 14th. All of the above Topics will be discussed and hopefully decided upon. The meeting will be held at Les and Cindy Cattin's; 163 West Third; Peru, In. . For directions or more information Cindy can be reached at 473-3776.

ENDING THOUGHTS

Please contact Cindy if you still are not receiving the TI Newsletter. Please, Please let us know how you feel about all of the topics in this newsletter. We need your input in order to meet your needs.

If you would like to contribute a hint, if you have a question, if you come across a bug in a program, or have a short program you would like to see in the newsletter please send it to: Cindy Cattin; 163 West Third; Peru, In. 46970.
