

# WEST PENN 99ERS NEWS

Volume 10 Number 6

March 1995

FROM  
MICKEY  
CENDROWSKI

the TI-99/4A (in every issue, along with the users group's address). While this idea may seem like a waste of space, I assure you it isn't. My own users group, the West Penn 99ers, has been in existence for nearly 10 years, and although we exchange newsletters with 40 TI clubs, I know that there are other clubs who haven't even heard of us (or us of them).

Now, more than ever, the lines of communication must be maintained. To get the ball rolling on this idea, here is the correct address for the West Penn 99ers (of which I am president).

West Penn 99ers  
c/o Mickey Cendrowski  
100 Pine Street  
Russellton, PA 15076

### Micropendium's Response

Not sure about a listing to be continued in every issue - though we could change our minds if the demand is there. In any case, users group representatives are welcome to write letters such as the above with information about their groups.

Editor

Well, to say the least, I must have made some type of impression - as I received two responses to my letter - from TOTAL STRANGERS!

Here's the first of those responses...

Dear Mickey,

I just read your letter in the January 1995 Micropendium and I agree with you that the TI community is getting smaller, but how small?

Or maybe more appropriate, is how large? I believe that there are two distinct groups. One as you mentioned that still supports the TI-99/4A, and the other group (probably much larger) like myself, that still use the TI-99/4A, but couldn't write a line of code if our lives depended on it.

This is somewhat analogous to a ball game. There are only a few players on the field, but thousands of fans watching. Most would probably like to play in the game, but realize their limitations, and so are content to participate by watching.

But why would anyone want

Continued on page 7

## SNOW?

Please call Mickey Cendrowski at 412-265-5201 before venturing out to our meeting on March 21st, just in case the meeting is cancelled, due to weather conditions.

This month I've decided to reprint some of the mail that I've received this month, so that you all could have a first-hand account of what has been happening in the TI-99/4A community these days.

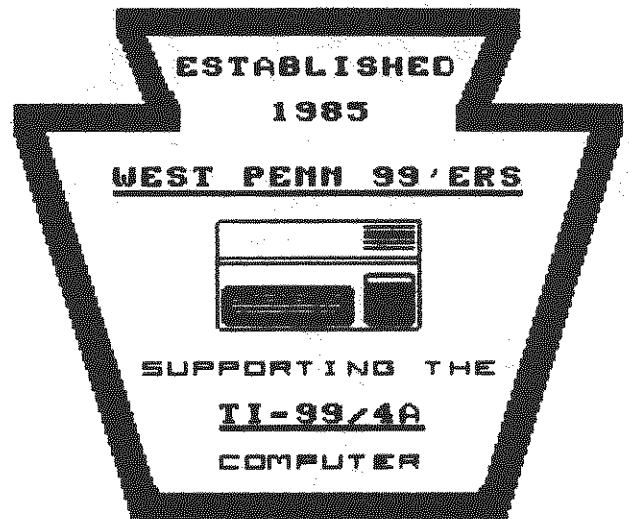

First, here's a copy of my letter to Micropendium, which appeared on page 7 of their January 1995 issue.

### User Groups, Unite!

With the TI community getting smaller, it is imperative that those of us who are still supporting the TI-99/4A continue to stay in touch with each other. Thus, the reason for this letter and my suggestion, I suggest that Micropendium list those users groups that are still supporting

# WEST PENN 99'ERS CLUB INFO

Next Meeting Date: March 21 1995  
 Meeting Location: Penns Woods  
 Civic Association  
 Just off Route 30  
 N. Huntingdon, Pa  
 Time of Meeting: 7:00 P.M.

## GENERAL ITINEARARY OF OUR CLUB'S MEETING

## LIST OF WEST PENN OFFICERS FOR 1995

President:	Mickey Cendrowski	412-265-5201
Vice-President:	Norm Rokke	614-264-6442
Treasurer:	Lynn Gardner	412-835-4304
Recording Secretary:	Paul Brock	412-478-2754
Corresponding Secretary:	Paul Brock	412-478-2754
Librarian:	John Whelan	412-823-3312
Newsletter Editor:	Mickey Cendrowski	412-265-5201
Assistant Editor:	Ralph Vasko	412-379-8762

The West Penn 99'ers Users Group is a Non-Profit organization, dedicated to encouraging the continued use of the TI-99/4A home computer.

Our membership fee is:

- \* \$15.00 per year for an INDIVIDUAL / FAMILY membership.
- \* \$10.00 per year for a NEWSLETTER ONLY membership.

Those having FULL memberships are entitled to the many extra benefits our club has to offer.

Some of those benefits are:

- \* Demos of the latest TI-99/4A software.
- \* Free copying of our West Penn 99'ers Disk Library.
- \* Latest T.I. news - Local - National - International.
- \* One on one help / Problem Solving.
- \* Participation in our Module Lending Library.
- \* Participation in our Video Lending Library.
- \* Ribbon re-inking - for just \$1.00 per ribbon.
- \* Various computer supplies - at a substantial savings.
- \* Participation in our Coke / Pepsi Wars.
- \* And ... entertainment by one of the biggest TI-99/4A supporters around.

We meet the third Tuesday of each month at the Penns Woods Civic Association in North Huntingdon, Pennsylvania, at 7:00 P.M.

If you can't make it to our meetings ... at least become a NEWSLETTER member - and enjoy our NEW NEWSLETTER FORMAT - done ENTIRELY on a TI-99/4A computer.

SEE PAGE 10 FOR OUR WEST PENN MEMBERSHIP APPLICATION.

# FOR THE RECORD

MINUTES  
BY

PAUL BROCK SR

The temperature was cold, but soon warmed up when the gavel struck the table around 7:20 P.M. The meeting came to order with no additional minutes. Lynn gave a good Treasurer's report, and was kept busy with renewing members.

We all got reacquainted with Joe Ekl. He brought some TI equipment to sell. John Williforth was to be here but was called to work at the last minute. Dick Ohi was unable to make the meeting because he was in the hospital. There was a few moments of silence for Emil Barca's grandson.

Mickey's new format for the new year is keeping up with the newsletters of the other clubs. There seems to be a contest between our newsletter and the Vast newsletter. Is this called a TI WAR?

High scores were challenged by other clubs. I am having trouble beating my own high score. I am trying to beat Mickey's high score on Centipede. I got 66,455 then my joystick seemed to stick!

Mickey said that she is getting caught up with her organizing. She also mentioned that she needs a new theme for next year.

Example...LET'S HAVE A LOT OF FUN AND TRICKS FOR 96.

There still is a lot of support for the TI.

Norm was in hot water because of the letter that Mickey wrote to Micropendium. We had some fun with that one.

Demos included how Mickey uses Page Pro 1.6 to do our newsletter. Norm demoed Mail Room. Both were raffle prizes for the evening.

John Whelan is still working on the library and got a new printer which he will soon use to print out a listing for everyone.

The computer is set up at every meeting for FREE copying of our library, which has a large variety of software.

I put in some pictures for the holiday, as you suggested.

## HAPPY ST. PATRICK'S DAY

Editors Note: Due to some hardware problems this month, I was not able to run Paul's original page (which included pictures).

## CODE WAR

Answer to last month's puzzle.

Agent 1 was Bill Dobbs. His code name was A-7.

Agent 2 was Bob Hicks. His code name was M-6.

Agent 3 was Dick Bull. His code name was B-8.

Agent 4 was Mel Hobbs. His code name was L-9.

And...

Agent 5 was Phil Hill. His code name was U-5.

BY  
JOHN  
WHELAN

## THREE MEN

Answer to January's puzzle.

In reply to your request for a solution to my puzzle...

I was hoping that you would have solved it, and sent me the answer.

Ha... Ha... Ha...

Just kidding.

Actually, I don't know if I can explain the answer in a letter, but I'll give it a try.

The only possible way that the two blindfolded men could have known the color of their hat would have been if they had seen TWO WHITE hats. (Then they would have to have had a BLACK hat).

If the blind man was wearing a WHITE hat, the second blindfolded man (seeing a WHITE hat on the blind man) would have deduced that his hat would have been BLACK. Therefore, the blind man had to have known that he was wearing a BLACK hat.

I hope that this explanation makes sense. If not, just change the puzzle to contain FIVE BLACK HATS, and eliminate the TWO WHITE HATS!

## WANTED

Individuals to contribute about one hour of their time, once a month, to write an article for their club's newsletter.

No experience necessary.

Flexible hours.

Benefits too numerous to mention.

To apply, send your article to...

Mickey Cendrowski  
100 Pine Street  
Russellton, PA 15076

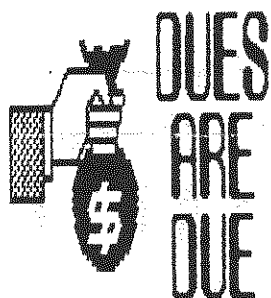

## UPDATING THE MEMBERSHIP

The West Penn 99'ers would like to acknowledge the following members for renewing their memberships for the 1995 season...

John Cline  
Joe Ekl  
Ken Farr  
James Wiegand

This brings our 1995 membership count up to 18 members.

Remember...

Please see Lynn Gardner, our West Penn 99'ers Treasurer, to renew your membership.

If you can't make it to our meetings...at least become a NEWSLETTER member - and enjoy our NEW NEWSLETTER FORMAT - done ENTIRELY on a TI-99/4A computer.

See page 10 for our West Penn membership application.

Remember...EVERYONE makes a difference!

## THE PRESIDENT'S APPRECIATION

Thanks go out this month to Frank Zic, for informing me of news concerning our fellow club members...

And to Skip Park, for sending me, yet another article for our club's newsletter.

So...what about the rest of you out there...

Where's your articles?

## NEWS VIA MA BELL

This month I received a number of calls from our membership - unfortunately, the news that I received was not good news.

Our deepest sympathy goes out to Emil Barca and his family in the loss of their 16-month-old grandson, who was recently killed when a - DRUNK DRIVER - ran into the vehicle in which Emil's grandson was a passenger.

Words just can't do justice at times like these. Please remember this family in your prayers.

## LIBRARY NEWS

John Whelan is still working hard on getting our disk library cataloged.

Please do what you can to help John accomplish this MONUMENTAL TASK!

Remember...

Our West Penn 99'ers disk library is available at ALL of our West Penn 99'ers meetings.

There is NO CHARGE for disk copying and there is NO LIMIT to the number of disks you may copy.

This is YOUR disk library.

If you need assistance in finding a particular program, ASK!

## A CLOSER LOOK

MUCH ADO...

SCENE: A church hall. Enter Bill, Colin, Graham, Tom and Trevor, five amateur actors playing the leading male roles in Shakespeare's "Much Ado About Nothing". They invite the solver to

discover their roles, their daytime jobs and the surrounding villages from which they travel to rehearsals.

Forsooth 'tis Tom who does from Hamwell hail, While Trevor plies his trade of railwayman From place which with an H its name begins.

Yet Graham, who as Pedro struts the boards, Is not the landlord who Hamlet calls his home.

While Benedick plays grocer when offstage. Brave Claudio in Boreham learns his part

But, mask removed, is not revealed as Bill; Don John in Holdforth Magna doth not dwell,

And Wranting's player, insurance does not sell.

In English...

The actors' names are Bill, Colin, Graham, Tom and Trevor.

Their roles are Benedick, Claudio, Don John, Don Pedro and Leonato.

Their daytime jobs are Grocer, Insurance Salesman, Landlord, Railwayman and Teacher.

And their home-villages are Boreham, Hamlet, Hamwell, Holdforth and Wranting.

ANSWERS...  
...NEXT MONTH

# CALL JUNCTION

By Skip Park  
West Penn 99'ers

Hello fellow 99'ers! I would like to share another short call program, "CALL JUNCTION", that has been very useful to me. It allows the branching of a program in as many directions as desired and the choice of a direction with a single key stroke.

```
100 SUB JNC(T$,K$,X)~~~~CALL JUNCTION~~~
110 DISPLAY AT(24,1):RPT$(" ",14-(LEN(T$)/2))&T$
120 CALL KEY(0,K,S) :: IF S=0 OR S=-1 THEN 120
130 IF K=13 THEN K=94
140 X=POS(K$,CHR$(K),1) :: IF X=0 THEN CALL SOUND(100,-2,0)
    ) :: GOTO 120
150 IF INT(X/2)<>X/2 THEN X=X+1
160 X=X/2
170 SUBEND
```

CALL JUNCTION works in conjunction with an "ON GOTO" or an "ON GOSUB" or a combination of the two. I.E.:

```
10 CALL JNC("(Y)es or (N)o", "YyNn", X)
11 ON X GOTO 20,30
20 PRINT "YES" :: GOTO 10
30 PRINT "NO" :: GOTO 10
```

## PARAMETERS

The first parameter (T\$) is text to be displayed to give instructions to the user. It can be optional or changed to suit one's needs.

The second parameter (K\$) contains the pairs of characters who's corresponding keys will be active. Any key (CTRL, FCTN, SHIFT) can be activated. Any number of keys can be activated. The characters are given in pairs, with no space or separators between them. Both characters in the pair perform the same function. This makes it easy to assign both upper and lower case to the same function. If only one key is wanted for one function the same character is given both times in the pair. Since the enter key cannot be typed and often needs to be active, the power symbol "^" is substituted for the CHR\$(13), (SEE LINE 130) so that the power symbol activates the enter key.

The third parameter (X) is returned to the main program to drive the "ON GOTO" or "ON GOSUB".

## HOW IT WORKS

(Line 10) calls JNC. (Line 110) displays T\$ centered on row 24. (Line 120) calls key and idles until a key is pressed. If a key is pressed (Line 130) tests for the power symbol. (Line 140) searches K\$ to match the key pressed. If no match is made then a sound is called and back to (Line 120). If a match is made X becomes equal to the position of the match. (Line 150) tests X to see if it is odd. If X is odd, 1 is added to X (this gives the first character in the pair the same value as the second). (Line 160) reorders the positions of the pairs in one integer increments. (Line 170) subends with X. If X=1 then (Line 11) goes to (Line 20) and prints "YES", or if X=2 (Line 11) goes to (Line 30) and prints "NO", then back to (Line 10).

I have found that with the use of this call program, I can design programs that are driven by many small menus, rather than one or two big main menus. This gives the program a better flow and allows one more choices and escapes.

I hope this is useful and would welcome any feed back.

Skip Park  
76 Johnson Street  
Jamestown, N.Y. 14701

716-498-2517

P.S.  
Bruce,

I'm still digesting all those disks and docs. Thank you very much!!

## TI-TIP

HOW TO RUN A DF80 PROGRAM WITHOUT THE "RUN" NAME

Load TI-BASIC from EDITOR/ASSEMBLER or MINI-MEMORY. TYPE:

```
CALL INIT
CALL LOAD("DSK?.filename")
CALL PEEK(16176,A,B,C,D,E,F)
PRINT CHR$(A)&CHR$(B)&CHR$(C)&CHR$(D)&CHR$(E)&CHR$(F)
```

The program name will now be printed and if you wish, CALL LINK("program")

# CREATE YOUR OWN CURSOR

By Bob Turner  
New Horizons - Northwest Ohio 99'ers

I don't quite know how to give proper credit to this routine, but whoever discovered this way to modify the cursor is an unsung hero.

While I have experimented with TI Extended Basic, I have learned many ways to make it do the things about which the manual never told you. Also, I have learned not to forget the clever programmers who offered their information and discoveries to the TI community.

Creating a cursor is rather easy, and once done, the cursor routine can always be used in other programs. If you understand how to define a character then understanding how to create a cursor is just as easy.

First, here is the XB code to redefine the cursor:

```
100 CALL CLEAR :: CALL INIT
110 CALL LOAD(8196,63,248)
120 CALL LOAD(16376,67,85,82,83,79,82,48,8)
130 CALL LOAD(12288,255,129,129,129,129,129,129,255)
140 CALL LOAD(12296,2,0,3,240,2,1,48,0,2,2,0,8,4,32,32,36,
4,91)
150 CALL LINK("CURSOR")
```

Line 130 defines the cursor description (what it looks like). Defining the cursor is made rather easy because you are not using HEX but decimal.

Decimal	128	64	32	16	08	04	02	01	
Row 1	X	X	X	X	X	X	X	X	= 2 5 5
Row 2	X							X	= 1 2 9
Row 3	X							X	= 1 2 9
Row 4	X							X	= 1 2 9
Row 5	X							X	= 1 2 9
Row 6	X							X	= 1 2 9
Row 7	X							X	= 1 2 9
Row 8	X	X	X	X	X	X	X	X	= 2 5 5

As you can see, the values come from adding the total value across each row to define the segments in the cursor. (Note the X's in the figure and the weighted value that was totaled.)

After defining your custom cursor, save it to disk and you are ready for your first run.

Run your program and look at your cursor. If you don't like it, merely make some changes and run again. Repeat this process until you are satisfied with your new cursor.

Note: The new cursor will stay in effect until you turn off your console.

## LIMA MULTI USER GROUP CONFERENCE

April 28 and 29  
Ohio State University  
Lima Campus, Lima, Ohio

This all TI event is TOTALLY FREE. No admission charge, no charge for tables.

For motel information, or to schedule a free exhibit room table, or to schedule a video taped seminar - Phone:

Dave Szuppl 513-498-9713  
Charles Good 419-867-3131

To arrange free airport pickup and delivery - Phone:

Columbus, Ohio - John Parkins 614-891-4965  
Dayton, Ohio - Rick Kellogg 513-773-5941  
Fort Wayne, Indiana - Dave Szuppl 513-498-9713

Please make airport arrangements with these individuals as far in advance as possible.

Don't miss this golden opportunity to meet some of the best TI-99/4A, Geneve, and CC40 supporters who are doing everything they can to keep our computers alive.

Show your support - for those who continue to show theirs!

Continued from page 1

to use a computer that's almost 15 years old? For the same reasons that we used them when they were new. You turn it on, pop in a cartridge or disk and are off and running. Never failed to do so. What the TI-99/4A does it does well. No it won't run windows or bloated poorly written applications. No self respecting computer would.

What I am trying to say is that we need a way to get the two groups together. You and other support groups can keep the hardware and software developments coming, and the rest of us can buy tickets to watch the game.

You probably noticed the sloppily hand written address on the envelope. This was to ensure that it is not machine readable. This letter was sorted, along with eleven others at the same time, to one of two hundred and seventy-seven sort bins. Every second twelve more are sorted the same way. These large machines (over seventy feet long) are controlled by a TI 9900 processor with 32K of RAM. Not Bad?

Yours Truly,

Lew King  
P.O. Box 144  
Industry, PA 15052

Now, here's the second response that I received - from a TOTAL STRANGER?

Dear Mickey,

I read your letter in the January 1995 issue of Micropendium and it has prompted me to write to you. I have been an owner and user of the TI-99/4A since 1986. I currently have three complete systems running, one for myself, one for my two college student daughters who live with me and one for my son and his wife who do not live with me. I also have another system in storage and tons of miscellaneous stuff.

I was hooked on the TI by my 71 year old father who also has several systems and uses his TI almost daily. The TI-99/4A became the common ground between my father and I and between my son and I. I have used Extended Basic and Basic mostly but I had background training in Assembly language in college many years ago and am trying to get the time to re-acquaint myself with it.

My reason in writing to you is the fact that in all the years I have used my TI, I have been out here alone. Except for my father and my son, I have had no other contact with the TI community. I have subscribed to Micropendium since 1988 but I find that alot of what is discussed, especially lately, is beyond my knowledge. I have realized for some time that if I am going to remain a TI user, I must join a group and expand my knowledge of the TI. The TI will die if we don't all

pull together as one and support each other. This is where you come in. When I saw that you were in Pennsylvania, my spirits soared. I was a little disappointed to find that you are in the Pittsburgh area, but at least you are in PA.

My father, by the way, lives in the Johnstown area and I went to college at California State University and did my student teaching in McKeesport, PA. So, I guess that means that I am truly a Pennsylvanian.

I am very interested in joining your group. Please send me whatever information you can as to cost and other requirements, and if there is an application, please send one along.

I will anxiously await your reply.

Thank you so much,

Craig D. Burkey, Sr.  
1410 Washington Blvd.  
Williamsport, PA 17701

## PRESIDENT'S NOTES

These two letters (from TOTAL STRANGERS), help to re-affirm my position that WE MUST KEEP THE LINES OF COMMUNICATION OPEN--BETWEEN ALL TI-99/4A SUPPORTERS.

If you feel the same way,

PLEASE take the time to write a letter to Micropendium and express your views. They need to hear from each and every one of you!

## MORE MAIL

Dear Mickey,

Thank you for the complimentary copy of your newsletter. In it I noticed that Skip Park was looking for the Bible on disk. As a former member of the Vast Users Group, I know that their disk library has the Bible on disk. You may wish to contact their librarian or president to see what their price tag is for it.

I think it's great to see your total devotion to the users group when your membership is only at nine people.

GREAT!!!! Hang in there!!!!

Regards,

Ray Frantz  
"Broker of 99/4A Stuff"  
Worldwide  
502 N. 51st Street  
Suite 2  
Phoenix, AZ 85006

And the VAST Users Group address is...

## TI-BROKER

Raymond Frantz  
 "Broker of 99/4A Stuff"  
 Worldwide  
 502 N. 51st Street  
 Suite 2  
 Phoenix, Arizona  
 85006-6649

JUST A REMINDER.....I continue to BROKER TI stuff because I want to be satisfied to know that IF someone needs SOMETHING 4A that there's a good chance that I will be able to at least LEAD THEM TO IT through this non-profit effort. THIS IS NOT A BUSINESS!!!

If you have something to sell...let me know and I will list it here.

If you see something here you wish to buy...let me know and I will arrange the transaction and shipment to you.

I NEED SELLERS ALL THE TIME. GET RID OF WHAT YOU DON'T NEED, someone else just might need that item.

My mailing will be made about every other month as long as there is an interest.

Note: We will pass around a copy of Ray's most recent list at our next meeting on March 21st. (If you cannot attend our meetings - write directly to Ray, at the above address for a copy of his most recent listing.)

WANTED - Printer Control Code information for a Seikosha SP-1000AP printer

Contact - Mickey Cendrowski  
 100 Pine Street  
 Russellton, PA  
 15076
