Volume 10 Number 7

April 1995

APRIL FOOLS?

Hello, and welcome to yet another issue of the West Penn News, the newsletter of the West Penn 99'ers. (and HOME OF THE COKE/PEPSI WARS!)

This month's meeting promises to be a good one.

First off, Art Gardner, our ribbon re-inker, will be running a special this month. He will re-ink your ribbon FREE OF CHARGE.

There is a limit of ONE ribbon per member, till everyone has had a chance, then seconds, ONLY if time permits.

Is this our April Fool's joke on you? Only I and Art Gardner know for sure, but what have you got to lose. You'll either have to PAY the buck OR you'll get your ribbon re-inked for FREE.

Either way, it's a great deal.

Next, I have it on very good authority that there will be a bunch of equipment up for sale at our April 18th meeting, as some of our members are getting ready for the Lima Show.

So, if you're in the market for some TI equipment, be sure to make it to our next meeting.

Also, (again, on very good authority), we will be having a representative from Notung Software speaking at our April 18th meeting.

So, if you're in the market for some Notung Software, you won't want to miss this GOLDEN OPPORTUNITY.

Are we teasing you with our April Fools celebration....
...hmmmm.

At any rate, we did decide to have a little fun with this issue of our newsletter.

Hope you enjoy our Coyote v Acme feature article.

While it doesn't have anything to do with the TI, it is fun reading, and perhaps it will serve to demonstrate just one of the many things you can do, using your TI-99/4A computer.

Actually, when you really get right down to it, each issue of our newsletter serves as an excellent example of what can be accomplished, using nothing more than a TI-99/4A system (and a little imagination).

While I am on the subject of our newsletter, I would like to thank those who have offered constructive criticism.

Since this is only my 6th month using Page Pro 99 and my 5th month using Page Pro Composer and my 1st month operating from a hard drive, I am still very much in the "LEARNING PROCESS," so PLEASE BE PATIENT WITH ME.

On the positive side, I really have come a long way in 6 months time, and I have received many compliments on my work from others in the TI community.

I can't emphasize this point enough, YOU could do the same thing too, if you only WANTED to, and was willing to put the TIME into it.

I did NOT become our newsletter editor because someone wasn't doing the job, RATHER I BECAME our newsletter editor because I wanted to see just how good a job I could do, using nothing more than a TI-99/4A computer.

I'm doing nothing magical, nor nothing new.

As a matter-of-fact, the only thing that I'm doing

is DOING. Sure it's easy to sit back and let someone else DO ALL THE WORK, but did you ever think that you just might be letting them HAVE ALL THE FUN!

THINK ABOUT THIS. (HMMM...)

The ONLY thing that sets me apart from the rest of you, is MY drive and MY love for MY computer (and nothing makes me happier than seeing MY TI-99/4A SHINE!)

MEETING HIGHLIGHTS FOR THIS MONTH

Latest T.I. News - Software Discounts - And Show Reports
 Latest News Concerning Our West Penn 99'ers Disk Library
 Demo - Page Pro Font Sampler from Asgard Software
 Demo - The Best of Arcade Action from Program Innovators
 Page Pro 99 SIG - Immediately Following The Main Meeting

LIST OF WEST PENN OFFICERS FOR 1995

President:	Mickey Cendrowski	412-265-5201
Vice-President:	Norm Rokke	614-264-6442
Treasurer:	Lynn Gardner	412-835-4304
Recording Secretary:	Paul Brock	412-478-2754
Corresponding Secretary:	Paul Brock	412-478-2754
Librarian:	John Whelan	412-823-3312
Newsletter Editor:	Mickey Cendrowski	412-265-5201
Assistant Editor:	Ralph Vasko	412-379-8762

The West Penn 99'ers Users Group is a Non-Profit organization, dedicated to encouraging the continued use of the TI-99/4A home computer.

Our membership fee is:

- * \$15.00 per year for an INDIVIDUAL / FAMILY membership.
- * \$10.00 per year for a NEWSLETTER ONLY membership.

Those having FULL memberships are entitled to the many extra benefits our club has to offer.

Some of those benefits are:

- * Demos of the latest TI-99/4A software.
- * Free copying of our West Penn 99'ers Disk Library.
- * Latest T.I. news - Local - National - International.
- * One on one help / Problem Solving.
- * Participation in our Module Lending Library.
- * Participation in our Video Lending Library.
- * Ribbon re-inking - for just \$1.00 per ribbon.
- * Various computer supplies - at a substantial savings.
- * Participation in our Coke / Pepsi Wars.
- * And ... entertainment by one of the biggest TI-99/4A supporters around.

We meet the third Tuesday of each month at the Penns Woods Civic Association in North Huntingdon, Pennsylvania, at 7:00 P.M.

If you can't make it to our meetings ... at least become a NEWSLETTER member - and enjoy our NEW NEWSLETTER FORMAT - done ENTIRELY on a TI-99/4A computer.

SEE PAGE 10 FOR OUR WEST PENN MEMBERSHIP APPLICATION.

FOR THE RECORD BY PAUL BROCK SR.

MARCH MINUTES

The March 21st 1995 meeting started at 7:01 P.M. The Vice-President was not present. Mickey started the meeting with a TI-ARTIST SLIDE SHOW DEMO. Some how the disk got stuck in the drive. Not to worry, John Cline came to the rescue with his trusty knife.

((It seems that Mickey's car picked up a bad habit, it started smoking, so her husband, Mike, had to bring her to the meeting. Unfortunately, they had to leave early, so that Mike could get to work. Mickey also got a new hard drive, which she installed herself!

A good report was given by our Lynn, our Treasurer. A few new members were picked up because of the letter that Mickey wrote to Micropendium. We also got three letters in response. Mickey mentioned that she is going to the Lima show. If anyone wants anything from the show, they should get in touch with her. Mickey is going to represent Notung Software.

As always, articles are appreciated and we invite more members to write about software and hardware. How about a little code you may have seen and thought that no one else has seen, or maybe some help with a hardware project.

Jim Wiegand, our member from West Virginia came late to the meeting because he was lost. After explaining the difficulty in finding the place, he demoed his TI-99/4A and his installed Zeno board. He put it together himself.

The other demo was Page Pro Composer, by Mickey. It was the raffle prize for the night.

The library was going strong, and so was the Pepsi and Coke. I forgot to ask how many pots of coffee Art had to make. All that were present had a great time.

WOPPY EASTER EVERYONE

MUCH ADD

Answer to last month's puzzle.

Bill, who played the part of Don John, travelled from the village of Hamlet. During the day he was a landlord.

Colin, who played the part of Claudio, travelled from the village of Boreham. During the day he was an insurance salesman.

Graham, who played the part of Don Pedro, travelled from the village of Wranting. During the day he was a teacher.

Tom, who played the part of Benedick, travelled from the village of Hamwell. During the day he was a grocer.

And, Trevor, who played the part of Leonato, travelled from the village of Holdforth Magna. During the day he was a railway man.

SAY... ...WHAT?

See if you can complete these sentences...

Example: 12 = M. in a Y.
Answer: 12 = Months in a Year

- 1 = W. on a U.
- 3 = B. M.
(S. H. T. A.)
- 4 = Q. in a G.
- 5 = D. in a Z. C.
- 7 = W. of the W.
- 8 = S. on a S. S.
- 9 = P. in the S. S.
- 11 = P. on a F. T.
- 12 = S. of the Z.
- 13 = S. on the A. F.
- 18 = H. on a G. C.
- 24 = H. in a D.
- 26 = L. of the A.
- 29 = D. in F. in a L. Y.
- 32 = D. at which W. F.
- 54 = C. in a D.
(with the J.)
- 57 = H. V.
- 88 = P. K.
- 90 = D. in a R. A.
- 200 = D. for P. G. in M.
- 1000 = W. that a P. is W.
- 1001 = A. N.

ANSWERS... ...NEXT MONTH

POP TABS

For those of you out there who drink pop from aluminum cans, please save your POP TABS and give them to Art Gardner at any of our West Penn 99'ers meetings. (They go a long way in helping those that are less fortunate).

EDITORS NOTE:

I want to thank all of you that have been giving me "PUZZLES" and "PEPSI CLIPPINGS" to put in our newsletter. It's appreciated.

WHAT ABOUT SOME ARTICLES?

UPDATING THE MEMBERSHIP

The West Penn 99'ers would like to acknowledge the following members for renewing their memberships for the 1995 season...

Dean King
Jim Peters

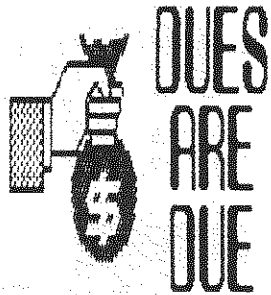

In addition to those listed above, we've also added two NEW MEMBERS.

WELCOME...

CRAIG D. BURKEY, SR.
LEWIS KING

This brings our 1995 membership count up to 22 members.

Remember...

Please see Lynn Gardner, our West Penn 99'ers Treasurer, to renew your membership.

If you can't make it to our meetings...at least become a NEWSLETTER member - and enjoy our NEW NEWSLETTER FORMAT - done ENTIRELY on a TI-99/4A computer, using Page Pro 99 and Page Pro Composer.

THE PRESIDENT'S APPRECIATION

Thanks go out this month to Jim Wiegand and his guest for demoing his TI-99/4A console, complete with Zeno board, and all those pretty LED lights and switches.

So far, Jim is the only one I know of that has used the Zeno board successfully.

I might add that this demo was totally unexpected.

Although Jim has been a member for quite some time now this was his very first visit to our club, since he lives so far away (in West Virginia).

Anyway, although Jim arrived just as we were finishing up, we quickly made him feel welcome, and did not hesitate in the least to have him demo his modified console.

What Jim found out was that we, the members of the West Penn 99'ers are pretty much like family.

As a matter-of-fact, we recently received a letter from new member, Craig Burkey, in which he said... I was left with the feeling that this organization is more like a family than a club.

Thanks guys, for those very kind words. We do try our best.

LIBRARY NEWS

John Whelan is still working hard on getting our disk library cataloged.

Please do what you can to help John accomplish this MONUMENTAL TASK!

Remember...

Our West Penn 99'ers disk library is available at ALL of our West Penn 99'ers meetings.

There is NO CHARGE for disk copying and there is NO LIMIT to the number of disks you may copy.

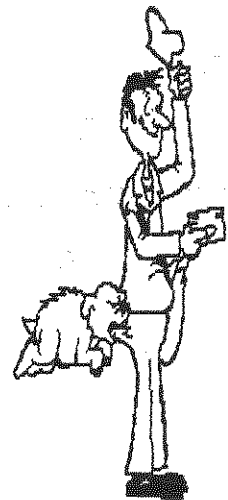

This is YOUR disk library.

If you need assistance in finding a particular program, ASK!

PEPSI UPDATE

NEW YORK (AP) -- Pepsi-Cola will gauge consumer reaction to a new cola with half the sugar and calories of its flagship brand starting next month in five Florida test markets.

The nation's second biggest soft drink marketer said this week it is calling the new drink Pepsi XL - the X is supposed to connote excellent taste and the L stands for less sugar.

FROM MORRISON

This month I received quite a bunch of mail from my fellow TI friends.

Lew King, from Industry, Pa wrote us another letter AND HAS NOW JOINED OUR USER GROUP.

Additionally, Craig Burkey, from Williamsport, Pa wrote to us again, AND HE HAS NOW JOINED OUR USER GROUP!

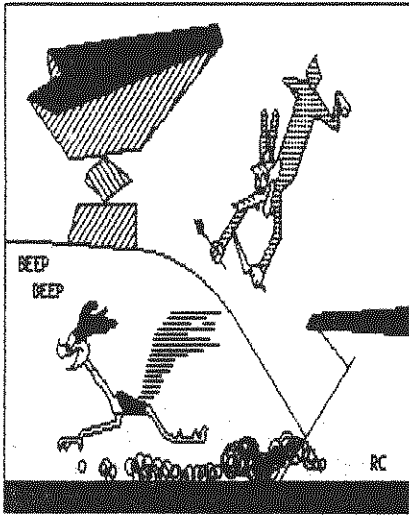

GREAT! Nice to have ya both as PART OF THE FAMILY!

Jim Wiegand, our member from West Virginia sent me a disk that could use some XB programming and/or debugging. Hopefully one of us will be able to help Jim out with his problem.

Paul Brock, our West Penn 99'ers Recording Secretary (and Corresponding Secretary) sent me his minutes on disk in Page Pro format (including pictures). Hopefully I won't corrupt his disk this month, so that you all can see just how much effort Paul puts into reporting our minutes.

COYOTE v ACME

Reprinted From The
St. Louis Computer Bridge
October 1994

In The United States District Court, Southwestern District, Tempe, Arizona, Case Number B19293, Judge Joan Kujava, Presiding...

Wile E. Coyote, Plaintiff v Acme Company, Defendant

Opening Statement of Mr. Harold Schoff, attorney for Mr. Coyote:

My client, Mr. Wile E. Coyote, a resident of Arizona and contiguous states, does hereby bring suit for damages against the Acme Company, manufacturer and retail distributor of assorted merchandise, incorporated in Delaware and doing business in every state, district, and territory. Mr. Coyote seeks compensation for personal injuries, loss of business income, and mental suffering caused as a direct result of the actions and/or gross negligence of said company, under Title 15 of the United States Code, Chapter 47, section 2072, subsection (a), relating to product liability. Mr. Coyote states that on eighty-five separate occasions he has purchased of the Acme Company (hereafter, "Defendant"), through that company's mail-order department, certain products which did cause him bodily injury due to defects in manufacture or improper cautionary labelling. Sales slips made out to Mr. Coyote as proof of purchase are at present in the possession of the Court,

marked Exhibit A. Such injuries sustained by Mr. Coyote have temporarily restricted his ability to make a living in his profession of predator. Mr. Coyote is self-employed and thus not eligible for Workmen's Compensation. Mr. Coyote states that on December 13th he received of Defendant via parcel post one Acme Rocket Sled. The intention of Mr. Coyote was to use the Rocket Sled to aid him in pursuit of his prey. Upon receipt of the Rocket Sled, Mr. Coyote removed it from its wooden shipping crate and sighting his prey in the distance, activated the ignition. As Mr. Coyote gripped the handlebars, the Rocket Sled accelerated with such sudden and precipitate force as to stretch Mr. Coyote's fore limbs to a length of fifty feet. Subsequently, the rest of Mr. Coyote's body shot forward with a violent jolt, causing severe strain to his back and neck and placing him unexpectedly astride the Rocket Sled. Disappearing over the horizon at such speed as to leave a diminishing jet trail along its path, the Rocket Sled soon brought Mr. Coyote abreast of his prey. At that moment the animal he was pursuing veered sharply to the right. Mr. Coyote vigorously attempted to follow this maneuver but was unable to, due to poorly designed steering on the Rocket Sled and a faulty or nonexistent braking system. Shortly thereafter, the unchecked progress of the Rocket Sled brought it and Mr. Coyote into collision with the side of a mesa. Paragraph One of the Report of Attending Physician (Exhibit B), prepared by Dr. Ernest Grosscup, M.D., D.O., details the multiple fractures, contusions, and tissue damage suffered by Mr. Coyote as a result of this collision. Repair of the injuries required a full bandage around the head (excluding the ears), a neck brace, and full or partial casts on all four legs.

Hamppered by these injuries, Mr. Coyote was nevertheless obliged to support himself. With this in mind, he purchased of Defendant as an aid to mobility one pair of Acme Rocket Skates. When he attempted to use this product, however, he became involved in an accident remarkably similar to that which occurred with the Rocket Sled. Again, Defendant sold over the counter, without caveat, a product which attached powerful jet engines (in this case, two) to inadequate vehicles, with little or no provision for passenger safety. Encumbered by his heavy casts, Mr. Coyote lost control of the Rocket Skates soon after strapping them on, and collided with a roadside billboard so violently as to leave a hole in the shape of his full silhouette.

Mr. Coyote states that on occasions too numerous to list in this document he has suffered mishaps with explosives purchased of Defendant: the Acme "Little Giant" fire cracker, the Acme Self-Guided Aerial Bomb, etc. (For a

Continued on page 6

Continued from page 5

full listing, see the Acme Mail Order Explosives Catalog and attached deposition, entered in evidence as Exhibit C.) Indeed, it is safe to say that not once has an explosive purchased of Defendant by Mr. Coyote performed in an expected manner. To cite just one example: At the expense of much time and personal effort, Mr. Coyote constructed around the outer rim of a butte a wooden trough beginning at the top of the butte and spiraling downward around it to some feet above a black X painted on the desert floor. The trough was designed in such a way that a spherical explosive of the type sold by Defendant would roll easily and swiftly down to the point of detonation indicated by the X. Mr. Coyote placed a generous pile of birdseed directly on the X, and then, carrying the spherical Acme Bomb (Catalog #78-832), climbed to the top of the butte. Mr. Coyote's prey, seeing the birdseed, approached, and Mr. Coyote proceeded to light the fuse. In an instant, the fuse burned down to the stem, causing the bomb to detonate. In addition to reducing all Mr. Coyote's careful preparations to naught, the premature detonation of Defendant's product resulted in the following disfigurements to Mr. Coyote:

1. Severe singeing of the hair on the head, neck, and muzzle.
2. Sooty discoloration.
3. Fracture of the left ear at the stem, causing the ear to dangle in the after shock with a creaking noise.
4. Full or partial combustion of whiskers, producing kinking, frazzling, and ashy disintegration.
5. Radical widening of the eyes, due to brow and lid charring.

We come now to the Acme Spring-Powered Shoes. The remains of a pair of these purchased by Mr. Coyote on June 23rd are Plaintiff's Exhibit D. Selected fragments have been shipped to the metallurgical laboratories of the University of California at Santa Barbara for analysis, but to date, no explanation has been found for this product's sudden and extreme malfunction.

As advertised by Defendant, this product is simplicity itself: two wood-and-metal sandals, each attached to milled-steel springs of high tensile strength and compressed in a tightly coiled position by a cocking device with a lanyard release. Mr. Coyote believed that this product would enable him to pounce upon his prey in the initial moments of the chase, when swift reflexes are at a

premium. To increase the shoes' thrusting power still further, Mr. Coyote affixed them by their bottoms to the side of a large boulder. Adjacent to the boulder was a path which Mr. Coyote's prey was known to frequent. Mr. Coyote put his hind feet in the wood-and-metal sandals and crouched in readiness, his right fore paw holding firmly to the lanyard release. Within a short time Mr. Coyote's prey did indeed appear on the path coming toward him. Unsuspecting, the prey stopped near Mr. Coyote, well within range of the springs at full extension. Mr. Coyote gauged the distance with care and proceeded to pull the lanyard release. At this point, Defendant's product should have thrust Mr. Coyote forward and away from the boulder. Instead, for reasons yet unknown, the Acme Spring-Powered Shoes thrust the boulder away from Mr. Coyote. As the intended prey looked on unharmed, Mr. Coyote hung suspended in air. Then the twin springs recoiled, bringing Mr. Coyote to a violent feet-first collision with the boulder, the full weight of his head and forequarters falling upon his lower extremities.

The force of this impact then caused the springs to rebound, whereupon Mr. Coyote was thrust skyward. A second recoil and collision followed. The boulder, meanwhile which was roughly ovoid in shape, had begun to bounce down a hillside, the coiling and recoiling of the springs adding to its velocity. At each bounce, Mr. Coyote came into contact with the boulder, or the boulder came into contact with Mr. Coyote, or both came into contact with the ground. As the grade was a long one, this process continued for some time.

The sequence of collisions resulted in systemic physical damage to Mr. Coyote, viz., flattening of the cranium, sideways displacement of the tongue, reduction of length of legs and upper body, and compression of vertebrae from base of tail to head. Repetition of blows along a vertical axis produced a series of regular horizontal folds in Mr. Coyote's body tissues--a rare and painful condition which caused Mr. Coyote to expand upward and contract downward alternately as he walked, and to emit an off-key accordior like wheezing with every step. The distracting and embarrassing nature of this symptom has been a major impediment to Mr. Coyote's pursuit of a normal social life. As the court is no doubt aware, Defendant has a virtual monopoly of manufacture and sale of goods required by Mr. Coyote's work. It is our contention that Defendant has used its market advantage to the detriment of the consumer of such specialized products as itching powder, giant kites, Burmese tiger traps, anvils, and two-hundred-foot-long rubber bands. Much as he has come to mistrust Defendant's products, Mr. Coyote has no other domestic source of supply

Continued on page 7

Continued from page 6

to which to turn. One can only wonder what our trading partners in Western Europe and Japan would make of such a situation, where a giant company is allowed to victimize the consumer in the most reckless and wrongful manner over and over again.

Mr. Coyote respectfully requests that the Court regard these larger economic implications and assess punitive damages in the amount of seventeen million dollars. In addition, Mr. Coyote seeks actual damages (missed meals, medical expenses, days lost from professional occupation) of one million dollars; general damages (mental suffering, injury to reputation) of twenty million dollars; and attorney's fees of seven hundred and fifty thousand dollars. By awarding Mr. Coyote the full amount, this Court will censure Defendant, its directors, officers, shareholders, successors, and assigns, in the only language they understand, and reaffirm the right of the individual predator to equal protection under the law.

TI-TIPS

From Various Sources

If you have a speech synthesizer and the TEII cartridge, here is a trick for debugging programs: All you have to do is enter your program, type LIST "SPEECH" and press ENTER. Your computer will read your listing back to you as you check it with your original.

If you want to disable the Quit key FCTN +, type in CALL INIT :: CALL LOAD(-31886,16) and press ENTER. You must have Extended Basic.

You don't have to enter each line number separately in either Basic or Extended Basic. Before you start, type NUM. Your computer will automatically enter the line numbers for you starting with 100, going up by 10s. If you wish to start with line 10, type NUM 10.

In both Basic and Extended Basic, you can edit a line by entering the line number and pressing the FCTN-E key. After editing that line, you may edit the previous line by pressing the FCTN-E key again OR by pressing the FCTN-X key to proceed to the next line down.

You can LIST a specific line or block of lines by typing LIST 140 or LIST 20-80. If you wish to LIST only the

first 10 lines, type LIST -100 and to LIST all lines above line 2000, type LIST 2000-.

If you want or need to renumber the lines in a program either to make it neater or make room for new lines you don't have to renumber them individually. Just enter the command RES, for resequence, then press ENTER.

When entering a listing in Extended Basic and several lines are very similar, you can save time by typing in the first line and pressing ENTER. Then press FCTN-8. Then change the line number and make the necessary changes to the line as needed, then press ENTER.

Have you ever pressed ERASE by mistake and lost the whole line? Don't panic and DON'T hit ENTER. Instead press FCTN-?, then press ENTER. Your line will still be intact.

In Extended Basic you can use REM or ! to put documentation in a program that the program will ignore.

You can add comments after a GOSUB or GOTO. They won't interfere with the program and you won't need REM or !.

When you want to stop a listing on the screen in Extended Basic, just press any key. To start the list again, press another key.

With Extended Basic and a disk system, save a program under the name LOAD. When you start with this disk in drive #1, it will load and run automatically.

If you have the TEII cartridge and the Speech Synthesizer type in the program on page 37 of the TEII manual. Try entering strings of J's, K's, Q's, U's, W's, or X's for different sound effects. Try mixing them for interesting sounds.

If you are going to save a program to tape and type OLD CS1, instead of SAVE CS1, don't panic. Press FCTN-E, then press ENTER. This will take you out of the tape loop.

In Extended Basic, type in RUN CS1. Then follow the instructions on the screen. It will load the program and then run it automatically.

If you have Extended Basic and 32K, type this in as the last line of your program. CALL INIT :: CALL PEEK(2,A,B):: CALL LOAD(-31884,A,B). This will return you to the title screen when the program is ended.

When your TI-99/4A is hooked up to a black and white TV, use CALL SCREEN(15). This will disable the color generator and remove the vertical lines you may have seen.

LIMA MULTI USER GROUP CONFERENCE

April 28 and 29
Ohio State University
Lima Campus, Lima, Ohio

This all TI event is **TOTALLY FREE**. No admission charge, no charge for tables.

For motel information, or to schedule a free exhibit room table, or to schedule a video taped seminar - Phone:

Dave Szimpl 513-498-9713
Charles Good 419-867-3131

To arrange free airport pickup and delivery - Phone:

Columbus, Ohio - John Parkins 614-891-4965
Dayton, Ohio - Rick Kellogg 513-773-5941
Fort Wayne, Indiana - Dave Szimpl 513-498-9713

Please make airport arrangements with these individuals as far in advance as possible.

Don't miss this golden opportunity to meet some of the best TI-99/4A, Geneve, and CC40 supporters who are doing everything they can to keep our computers alive.

Show your support - for those who continue to show theirs!

While attending the show, be sure to stop by our West Penn 99'ers table, which will be in conjunction with the Pittsburgh User's Group table.

We always look forward to spending time with our friends.

If you'd like to meet the President of the West Penn 99'ers, who also is our newsletter editor, be sure to stop by the Notung Software table, where Mickey Cendrowski will be representing Notung Software.

Stop by and say Hi - better yet, stop by to say Hi, then check out all the software that Notung has to offer. Chances are you'll find something to peak your interests.

TI-BROKER

Raymond Frantz
"Broker of 99/4A Stuff"
Worldwide
582 N. 51st Street
Suite 2
Phoenix, Arizona
85008-6649

JUST A REMINDER.....I continue to **BROKER** TI stuff because I want to be satisfied to know that IF someone needs **SOMETHING 4A** that there's a good chance that I will be able to at least **LEAD THEM TO IT** through this non-profit effort. **THIS IS NOT A BUSINESS!!!**

If you have something to sell...let me know and I will list it here.

If you see something here you wish to buy...let me know and I will arrange the transaction and shipment to you.

I **NEED SELLERS ALL THE TIME**. GET RID OF WHAT YOU **DON'T NEED**, someone else just might need that item.

My mailing will be made about every other month as long as there is an interest.

Note: We will pass around a copy of Ray's most recent list at our next meeting on April 18th. (If you cannot attend our meetings - write directly to Ray, at the above address for a copy of his most recent listing.)

WANTED - Printer Control Code information for a Seikoshi SP-1000AP printer

Contact - Mickey Cendrowski
100 Pine Street
Russellton, PA
